DoD Conceals Counsel's Opinion On Powers Of Subordinates

ALL is not going smoothly at the Pentagon in the lower echelon implementation of the Defense Reorganization of 1958.

Congress can be expected to take a new hand in the situation, as was indicated in the sharp remarks made by Chairman Carl Vinson (D-Ga.) to Secretary of Defense McElroy (Page 3) on the public information situation.

THE JOURNAL learned this week that the Services are disturbed by a new opinion from Defense Department General Counsel Robert Dechert which interprets the "command authority" of such staff officers as the Assistant Secretaries of Defense, the Assistants to the Assistant Secretaries, the Special Assistants, and the Assistants to the Special Assistants.

A routine request was presented to the Defense Department Office of Public Information for the document.

After more than a day's delay, the answer came back that "yes, such a document does exist, but it cannot be released because it is a privileged communication."

No suggestion was made that the opinion of the General Counsel, presented in a lengthy memorandum to Secretary

Nike-Zeus Barrage Hits Congress; Army Statements Conflict With Sec'y McElroy

Congress has been hit by a barrage of conflicting statements on the status of the Army's Nike-Zeus anti-missile missile.

Secretary of Defense McElroy led off with testimony that Zeus is receiving top priority, but he said that production is at best a couple of years away.

Secretary McElroy told the House Armed Services Committee that there have been no "breakthroughs" to speak of.

Maj. Gen. William W. Dick, Jr., Director of Special Weapons in the Office of Lt. Gen. Arthur G. Trudeau, Army R&D Chief, told the House Committee on Science and Astronautics that there have

been "several major technical breakthroughs" in the program.

General Dick said the Army could use \$30 million during the next few months and \$750 million during Fiscal '60 to begin establishment of production facilities.

Maj. Gen. Dwight Beach, Director of Air Defense and Special Weapons in the Office of the Deputy Chief of Staff for Military Operations, Lt. Gen. James E. Moore, testified that the Army recommended a facilities construction program for Zeus, but was overruled on the advice of top scientists.

Assistant Defense Secretary W. J. McElroy

Pentagon Asks 21,701 Family Quarters; Air Force Gets Highest Allocation

CAPEHART LOCATIONS: Army, P. 4;
Navy-Marine Corps, P. 6; Air Force, P. 8

THE Pentagon is seeking Congressional approval for construction of 21,701 housing units for military families in the United States and overseas.

Housing plans for the coming fiscal year were outlined to Congress 10 February when the Defense Department requested a \$1.3 billion building program.

Only a small part of the cost of the housing construction is included in the \$1.3 billion total.

Most of the family housing units—18,546—will be constructed under the Capehart program, financed by private builders. In addition, 2,694 units will be constructed overseas by utilizing foreign currencies.

The Pentagon is seeking Congressional funds for only 461 public works housing units. This group includes an unspecified number to be constructed for Army families at Ft. Greely, Alaska, for the Army and Air Force at various ZI locations and for the Army at various overseas locations.

Most of the funds requested in the \$1.3 billion military construction program are for facilities.

The biggest share of the new Capehart construction will go to the Air Force—8,025 units. The Pentagon is asking approval for 6,199 Army units, 3,822 Navy units and 500 Marine Corps units.

The Air Force also garners the biggest share of the housing to be constructed overseas with foreign currencies—2,037 units. The Army is slated to receive 557 units, the Navy 100 and the Marine Corps, none.

All 100 of the Navy units are to be constructed at the Naval Station, Bermuda.

The Army's 557 units include 400 to be constructed at various locations in France and 157 to be constructed at "Location 12" of the National Security Agency.

Air Force units to be constructed with foreign funds include 300 units at various locations in France, 333 at classified locations, and the remainder at the following bases in the United Kingdom:

Alconbury RAF Station	203
Bentwaters RAF Station	187
Burderop Park Hospital	152
Croughton RAF Station	31
Greenham Common RAF Station	135
High Wycombe RAF Station	136
Lakenheath-Mildenhall Area	468
Sculthorpe RAF Station	61
Welford RAF Station	31

FOUR STARS AND A CUB. Cub Scout Tim Mervine, specially selected for the honor, pins a Scout badge on the blouse of General Thomas D. White, Chief of Staff of the Air Force. It was part of Operation VIP to publicize Scout Week, 8 to 14 February. Other cubs similarly pinned badges on top U. S. officials.

AT MISSILE SYMPOSIUM. Assistant Secretary of the Army Dewey Short and Lt. Gen. Charles E. Hart, CG, USARADCOM, at the AUSA Guided Missile and Electronics Symposium at Ft. Bliss, Tex.

"Hump" Plan Revamped; Drop Proposal For Retired Pay Bonus; Hearings Set

A REVISED Navy-Marine Corps "hump" bill, providing selective retirement for hundreds of senior officers, has reached Congress.

Hearings will open 16 February before the Kilday House Armed Services Subcommittee. This is only five days after the measure reached the Capitol.

The Navy said the re-drafted plan will save the Government approximately \$11.5 million during the next six fiscal years. The new bill eliminates an earlier proposal to increase the retired pay of officers forced off active duty.

It authorizes new "zone of consideration" procedures for promotion to lieutenant colonel in the Marine Corps.

The measure is designed, the Navy said, "to provide equitable opportunity for promotion to Navy and Marine Corps officers who are in or behind the 'hump.'"

The "hump" consists of the large group of officers who were commissioned

MC, DC Promotions To O-6 Slow In All Services; Navy Eyes Early Retirements

Acute Specialist ShortagePage 18
Rename Navy Surgeon GeneralPage 18
Medical Rank BreakdownPage 19

THE Navy, which has almost twice as many Medical and Dental Corps captains as the Army and Air Force have MC and DC colonels, is studying a plan that would force the premature retirement of scores of its best qualified physicians and dentists.

This comes at a time when all of the Services are suffering from shortages of physicians with board qualifications.

Promotion prospects for physicians and dentists to the ranks of lieutenant colonel (commander) and colonel (captain) are not bright in any of the Services. The Navy, however, is confronted with the most critical problem.

The fate of the Navy plan to accelerate MC and DC retirements must await Congressional action on the Navy's "hump" legislation. This bill would provide early

Names In This Week's News In All The Armed Services

Maj. Gen. James B. Quill, former Army Assistant Comptroller, is the new CG of the 4th Armored Division in Germany, succeeding Maj. Gen. Andrew P. O'Meara, assigned to EUCOM in Paris.

2d Lt. Kang Suk Rhee, adopted son of Republic of Korea President and Mrs. Syngman Rhee, has reported to the Infantry School at Ft. Benning, Ga., to attend the Officers' Leader Course. He also expects to take the Airborne and Ranger courses.

Chaplain (Brig. Gen.) Robert F. Taylor, Deputy Air Force Chief of Chaplains, was chosen to preach on "Our Spiritual Heritage" at a 15 February service in the Washington Cathedral. Secretary of the Air Force James H. Douglas and General Thomas D. White, Chief of Staff, were designated to read the scripture lessons, with special music to be sung by the Protestant Cadet Choir from the USAF Academy.

Cdr. H. D. Davison, USN, led the USS Edisto to a "first" when the icebreaker arrived at Ellsworth Station, Antarctica, 1 February after sailing non-stop on a 9,335-mile voyage from Norfolk. Departing in mid-December, the Edisto was the first vessel in Deep Freeze history to accomplish such a cruise without refueling or provisioning.

FIRST MILITARY WINE TASTER—Maj. Gen. Sory Smith (right), Commander of the 4th Air Force, Hamilton AFB, Calif., is first to sign the charter of a new, unofficial Armed Services group titled The Order of Military Wine Tasters. It is devoted to enjoyment of wine as a beverage of moderation. At left is Edmund A. Rossi, manager of the Wine Advisory Board and member of a pioneer California wine-growing family. He presented General Smith with a Wine Taster certificate "in recognition of the latter's reputation as a connoisseur."

Dr. Maurice Matloff of the Office, Army Chief of Military History, has been awarded an Army Research and Study Fellowship to make a study of "National Approaches to Military Planning and Coalition Strategy." The study will be conducted during 1959 at military headquarters in Washington, London and Paris.

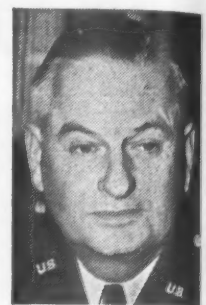

Dr. Jack P. Ruina, who has been Associate Professor of the Department of Electrical Engineering and Research Associate Professor of the Control System Laboratory at the University of Illinois, has been named Deputy Requirements to Air Force Assistant Secretary (R&D) R. E. Horner.

Lt. Gen. William H. Tunner, Commander, reports a new low for aircraft accidents within the MATS during 1958. The accident rate of the command dipped to 3.05 per 100,000 flying hours in 1958 compared to 3.90 in 1957, marking the fifth consecutive year that the MATS safety mark has improved.

Lt. Gen. William Kepner, USAF-Ret., Chairman of the Board of Radiation, Inc., Orlando, Fla., is Convention President for the Third National Convention on Military Electronics—1959, to be held in Washington, D. C., on 29, 30 June and 1 July. It is sponsored by the Professional Group on Military Electronics of The Institute of Radio Engineers.

Maj. Gen. Charles L. Dasher, U. S. Army Caribbean CG, will have operational control of all Army forces in Exercise Banyan Tree to be conducted in Panama 15-28 February.

Maj. Gen. Truman H. Landon, Caribbean Air Commander, will have operational control of all Air Force elements in the area, with Lt. Gen. Ridgely Gaither, USA, Cinc Caribbean, in overall charge of the test. Banyan Tree, which will be covered on the scene by THE JOURNAL, will be featured by the deployment of a Reinforced Airborne Battle Group from the 82d Airborne Division, Ft. Bragg, N. C., directly to Panama where a parachute assault will be made. More than 5,000 Army and Air Force personnel and 140 Air Force aircraft will take part in the Exercise, designed to test STRAC and TAC forces.

Maj. Gen. Dasher

Brig. Gen. Francis P. Hardaway, USA-Ret., head of Civil Defense in St. Louis, directed rescue work there this week following the tornado disaster.

AF DROPS MANPOWER ASSISTANT SECRETARY

THE Air Force has decided to drop the office of Assistant Secretary for Manpower, Personnel & Reserve Forces, formerly held by David S. Smith. Instead, the Air Force will have a Special Assistant for Manpower, Personnel & Reserve Forces, who had yet to be named as THE JOURNAL went to press. Secretary James H. Douglas, acting to implement the Defense Reorganization of 1958, said that the duties of the Assistant Secretaries for Financial Management (Lyle S. Garlock), Materiel (vacant) and Research and Development (Richard E. Horner) will be unchanged.

MSTS Chief Wants "Two-In-One" Garb

VADM. John M. Will, MSTS Commander, has come up with an idea that could result in dollar savings for all active duty officers. He wants to make the tails on the present evening dress blue coat detachable.

This arrangement, he suggests, will provide two uniforms in one at "a reasonable cost to each officer."

The Naval Uniform Shop in the Nation's Capital is working on the idea, trying to develop a zipper arrangement that will not be obvious when in use. If the idea proves practical, officers could convert their formal garb to semi-formal apparel by zipping off the tails. This would convert the formal evening dress blue coat to a blue mess jacket. Then, all an officer would have to do is change his shirt, switch from a white tie to a black tie and don a cummerbund.

Here's a copy of Admiral Will's letter:

22 December 1958
From: Commander Military Sea Transportation Service
To: Chief of Naval Personnel

Subject: Dinner dress blue jacket; modification of Reference (a) BuPers Notice 1020 of 28 November 1958.

1. Reference (a) authorizes the optional wearing of a dinner dress blue jacket by flag officers and captains, the jacket to be of the "same design, material, and insignia as the evening dress blue coat but without tails."

2. The above, while optional, may be deemed desirable by many of those authorized to wear it. The expense of an additional uniform, however, may deter their taking advantage of the opportunity to wear it.

3. It is recommended, therefore, that a study be made of the feasibility of making tails on the present evening dress blue coat detachable, by some zipper or button arrangement. This, if practical, would provide two uniforms in one, at a reasonable cost to each officer. This would make it possible and, perhaps, advantageous for the Bureau to extend the wearing of the uniform to all officers.

J. M. Will

STRAC AND MISSILES. Maj. Gen. John B. Medaris, center, who heads the Army Ordnance Missile Command, Huntsville, Ala., is pictured conferring with four STRAC leaders. Left to right are Maj. Gen. William Westmoreland, 101st Airborne Division CG, at Ft. Campbell, Ky.; Maj. Gen. Robert Sink, XVIII Airborne Corps CG, at Ft. Bragg, N. C.; General Medaris, Maj. Gen. Hamilton Howze, 82d Airborne Division CG, Ft. Bragg; and Brig. Gen. William Harris, XVIII Airborne Corps Artillery Commander.

New Quarters Plan Is Proposed For Couples; Most Gain, Some Lose

The Pentagon has asked Congress to approve a new quarters allowance formula for couples who are both in uniform.

The plan, which also includes a change in the residency requirement for dependent parents, would cost \$477,400 annually. Here is how the new formula would work:

Where a husband and wife are both members of military services entitled to receive basic pay and are assigned to the same or adjacent posts, the senior member would be entitled to basic allowance for quarters of a member with dependents. This amount ranges from \$85.50 per month for second lieutenants and ensigns, to \$171 per month for flag and general officers; from \$85.50 to \$119.70 for warrant officers, and from \$51.30 to \$77.10 for enlisted men with one dependent.

If either member voluntarily occupies Government quarters intended for a member without dependents, neither member, under the new formula, would be entitled to an increased basic allowance.

During periods that senior member would be entitled to increased basic allowances, the junior member would not be entitled to any BAQ, and any dependent of the junior member would be deemed a dependent of the senior member.

The proposal, which has been submitted to the House and Senate Armed Services Committees, also would authorize continuance of quarters allowance to a serviceman when his wife, a member of a Reserve component normally not on active duty, is ordered to active duty or active duty for training for a period of less than three months.

Also, it would permit female members of the Armed Forces to draw BAQ when stationed at or near the home port of her husband's ship, unless she voluntarily occupies Government quarters.

At present, members of the Service whose wives also are members of the Service are not entitled to quarters allowances at the "with dependents" rate on the wife's account. The Pentagon points out that "this has resulted in an inequity in cases in which husband and wife are assigned to the same post or to adjacent posts."

The Comptroller General has ruled that in such cases the male member is entitled to BAQ at the "without dependents" rate if no married quarters are

available for the couple, but the wife is not entitled to any quarters allowance if single-type quarters are available for her occupancy.

Thus, the Pentagon notes, the couple is "at a disadvantage as compared to a couple consisting of serviceman and civilian wife, since the serviceman whose wife is a civilian is entitled to quarters allowance at 'with dependents' rate."

The proposed legislation is designed to correct this inequity.

At the same time, however, it would result in a monetary loss for some couples.

An unknown number of married members who now both draw the allowance for quarters authorized a single member because they are stationed in an area like Washington, D. C., where single Government quarters are not available, will "sustain a temporary reduction in income," the Pentagon said, because the senior member will then draw quarters allowance authorized a member with dependents, which is a smaller amount than the sum of two "single" quarters allowances.

Similarly, those married members who are each drawing larger quarters allowances because of dependency of other members of their immediate families will, on enactment of the new proposal, be authorized only one "married" quarters allowance.

The proposal also permanently eliminates a legal provision that dependent parents must "actually reside in the household" of a Service member if the member is to be authorized a family quarters allowance because of this dependency. The requirement has been suspended since 8 September 1950.

The Pentagon said the proposed legislation will cost, each year, approximately \$164,000 for the Army, \$197,000 for the Air Force, and \$116,400 for the Navy.

Col. Manlove Heads CONARC Ordnance

Col. Almon W. Manlove has been appointed Ordnance Officer for the Continental Army Command at Ft. Monroe, Va.

He had been U. S. Army, Alaskan Ordnance Officer at Ft. Richardson.

Colonel Manlove, USMA '34, received the degree of Master of Science from Massachusetts Institute of Technology in 1940.

Pentagon Withholds Counsel's Opinion On Reorganization Powers Of Subordinates

From first page—

McElroy, was "classified" in any way. The fact is that a good portion of the text is devoted to an analysis of Executive Branch powers dating to the 18th century.

More pertinent to the present difficulties at the Pentagon are the paragraphs in which Counsel Dechert discusses the command responsibilities which Secretary McElroy may delegate to his subordinates, and which they can exercise in his behalf.

Although it cannot be confirmed because of the Defense Department's refusal to release the document, reports are circulating at the Pentagon that Mr. Dechert's conclusions indicate that in some instances Assistants to Assistant Secretaries and Special Assistants might find it easier to issue orders to a Service than an Assistant Secretary.

The Defense Reorganization Act of 1958 states:

"Except as otherwise specifically provided by law, no Assistant Secretary of Defense shall have authority to issue orders to a military department unless (1) the Secretary of Defense has specifically delegated in writing to such an Assistant Secretary the authority to issue such orders with respect to a specific subject area, and (2) such orders are issued through the Secretary of such military department or his designee."

The question that the Services are asking is whether the Secretary of Defense might not be able, under the Reorganization Act, to give a Special Assistant broad powers to issue orders to the Services, or perhaps even an Assistant to an Assistant Secretary.

A tipoff that this is a controversial area is the fact that more than six months after passage of the Reorganization Act last summer, the Pentagon's General Counsel finds it necessary to provide Sec-

retary McElroy with a new memorandum on the latter's powers of delegation.

The "privileged staff paper," as it was described by one Pentagon spokesman, is certain to become a target for public disclosure by Congressional committees.

It may be that Secretary McElroy and General Counsel Dechert will succeed in retaining the text in a "privileged status," but there is little question that Congress is going to demand a full report on its contents, and with this, a full explanation of the extent to which the Secretary proposes to delegate his authority for issuing orders to the Services.

RAdm. Clark Succeeds M/G Olsen As MAAG Chief

RAdm. Sherman R. Clark, Deputy Commandant, Industrial College of the Armed Forces, in the Nation's Capital, has been named to succeed Maj. Gen. John J. O'Hara, USAF, as Chief of the Military Assistance Advisory Group, Italy.

RAdm. Ira H. Nunn, senior member on the United Nations Military Armistice Commission, Seoul, Korea, succeeds RAdm. Clarence E. Olsen as Chief of the military advisory group in Norway.

General O'Hara reports to 8th Air Force, McDill AFB, Fla., for further assignment.

Admirals Clark and Nunn assume their new duties this Summer. Their reliefs have not yet been named.

Next Week The Nurses

Military nursing careers have assumed new attractiveness as the result of the Nurses and Medical Specialists Career Incentive Act of 1957 and last year's military pay law.

Next week's JOURNAL will feature a special report on the nurse corps of all three Services.

New Northrop Fighter For Allies

THE Defense Department authorized the release this week of the above photograph of a mockup of the new Northrop N-156F multi-purpose fighter, designed to meet the needs of Allied nations during the 1960-70 period. Designed for a variety of missions, first of which are to deliver the new generation of ultra-sonic guided missiles and bombs against an enemy's air strength, the supersonic weapon system is unique in that it represents the first time U. S. technology has been tailored into a weapon specifically designed for operation under conditions found in friendly nations outside the U. S.

Outstanding economy features of the airplane, including its low cost of development, manufacture, maintenance and operation, are expected to result in large savings both to U. S. taxpayers and to using nations.

The N-156F offers combat effectiveness superior to currently operating Century Series fighters at large cost savings. It is designed to operate from short and relatively unprepared airfields, can use a variety of advanced armament. The N-156F is one member of new family of military aircraft systems under development by Northrop. All aircraft of the N-156 family share a common design approach based on maximum exploitation of newly available high thrust/weight ratio engines, plus latest developments in other areas of advanced technology.

CONARC CHIEF AT HOOD—General Bruce C. Clarke, second from right, Continental Army Commander at Ft. Monroe, Va., was the guest of honor at a luncheon during his recent visit at Ft. Hood, Tex., where he commanded the 1st Armored Division in 1951-1952. With General Clarke are, left to right, Maj. Gen. Hugh F. Harris, CONARC Deputy CofS for Operations and Training; Maj. Gen. Earl G. Wheeler, 2d Armored Division CG; General Clarke, and Maj. Gen. William S. Biddle, III Corps and Hood Commander.

PIO Directive Raises New Questions On Powers Of "Vice Presidents"

Secretary of Defense Neil H. McElroy has been warned to watch his step on all Pentagon orders going out to the unified and specified commands.

Chairman Carl Vinson (D-Ga.) of the House Armed Services Committee has made it clear that Congress will not tolerate the issuance of direct orders to field commanders by the Assistant Secretaries of Defense.

This problem was debated at length during last year's hearings on the Defense Department Reorganization Act.

It put in a new appearance on 6 February while Secretary McElroy was testifying before the Armed Services Committee.

Questions about the authority of the Pentagon "vice presidents" were raised in connection with a pending Defense Department policy decision on the public information activities of the unified commands.

Reports circulating at the Capitol indicate the Defense Department is preparing to turn over control of all public affairs activities in the unified commands to Assistant Secretary of Defense Murray Snyder.

Chairman Vinson, while questioning Secretary McElroy, recalled that under the provisions of the Reorganization Act "it was our thought, and we think the law spelled it out, that all directives and orders to the unified and specified commanders had to come through you and the Joint Chiefs of Staff." He asked the Secretary if this was not so.

Secretary McElroy said "This is true about operational instructions."

Chairman Vinson said, "Now here is what is worrying me. I think the law is very positive on how it should come. It doesn't come, as I interpret it, from any Assistant Secretary."

"I understand that some assistant secretary has issued directives to the joint commanders without it coming through the Secretary and the Joint Chiefs of Staff. That has been stopped. I am just inquiring, has it been stopped so forcibly that it will not continue to happen in the future?"

Secretary McElroy said, "Well, there may be certain parts of the operation of the unified commands, such as public relations policy, as a good example, or public information . . ."

Chairman Vinson interrupted: "Now let's get this straight, because this is very important. Now who is going to issue these commands—you, through the Joint Chiefs of Staff, or some assistant secretary under the charter that you have adopted? Now, I think in the orderly procedure there is a clear channel of command. What we have written in the law should be adhered to as strictly as possible. And it comes through the Joint Chiefs of Staff."

Secretary McElroy said, "Well, now, let me complete my statement, if I may, sir, about this public affairs. This hasn't been decided yet. But we are in the process

of considering it, and this is an example of the kind of a situation where we might not go through the Joint Staff—in the establishment of public information policy with a unified command. Because of the fact that we have up to this time decided not to set up a public information part of the Joint Staff, these policy instructions might very well go out directly from the Assistant Secretary who is responsible for this in the Department of Defense, only with notification of this action to the Joint Staff."

Chairman Vinson said, "Well, I think, Mr. Secretary, before you reach a final decision, you had better read the law carefully and you better read the intent of Congress. Because that was not the intent, and I do not think it is what the statutes prescribed, as to the method of issuing directives to the commanders—the joint and specified commanders. I think the law is positive that it must come—and we had a purpose in writing it in that way, because we wanted the Joint Chiefs of Staff, through you, to issue the orders so that there would be no confusion of too many people mixing up in the operation of the unified and specified commands."

Chairman Vinson also raised some questions about a new JCS memorandum defining "operational command."

In reporting the Pentagon Reorganization Act last year, the House Committee said "full operational command" of units assigned to the specified and unified commands "does not include such matters as administration, discipline, internal organization and unit training, except when a subordinate commander requests such assistance."

He asked if the Joint Chiefs have recently issued "a memorandum contrary to that line of thought."

Secretary McElroy said he would furnish a copy of the memorandum for the record. He said the memorandum was issued "by, let's say, the highest authority," and "there was not in our judgment any conflict."

AF Stresses Rules For Combat Training

Stricter training has been decreed by the Air Force for its Combat Readiness Training (CRT) pilots, following completion of safety surveys which linked inadequate training with the cause of major aircraft accidents.

The Air Force especially noted in AFR 121-26 that some instructor pilots in CRT aircraft have had insufficient pilot qualification in the type of aircraft being operated.

The regulation tells commanders to assure that pilots and instructors are and remain proficient in their assigned aircraft. It also commands a review of all CRT procedures to determine the adequacy of present training programs.

GEN. BEACH MEMORIAL. Mrs. Howard T. Karsner, Washington, D. C., widow of Maj. Gen. George C. Beach, MC, USA, has the help of Brig. Gen. Clement F. St. John, Commander of Brooke Army Hospital, Ft. Sam Houston, Tex., in unveiling the facsimile of the plaque that will mark the naming of one of the hospital buildings for her former husband. A second auxiliary building will be named in honor of Brig. Gen. Rawley E. Chambers, MC, USA.

Army Pacific Commanders Meet

General I. D. White, Cinc, U. S. Army, Pacific is holding an annual conference of major commanders 11-16 February at Ft. Shafter, T. H.

Conference participants include General George H. Decker, Eighth Army CG in Korea; Lt. Gen. Donald P. Booth, CG, U. S. Army, Ryukyus/IX Corps, Okinawa, and Maj. Gen. John E. Theimer, CG, U. S. Army, Hawaii/25th Infantry Division.

Lt. Col. John C. Kulp, Jr., was the conference representative for Maj. Gen. L. L. Doan, CG for U. S. Army Forces, Taiwan.

New CWO-4s

Five Chief Warrant officers were promoted to CWO-4 in SO 29, through sequence 142 in Circular 624-26, dated 26 June 1958. They are:

John G. Beatty, QMC; Joseph B. Hunt, AGC; Charles O. Keagy, TC; Mortimer J. Mack, Jr., MA; and Ramon E. McDougle, MA.

8 New Eagles

Eight Army lieutenant colonels have been promoted to temporary colonels in S.O. 29 effective 10 February. Their names as listed in Circular 24-35 are:

James C. Chestnutt, TC, 87 Medical—Oliver R. Beusing, Edwin J. Pulaski, and John J. Young.
Dental—Karl F. Ehrlich, Francis L. Flatt, and Earl R. Nichols.
MSC—Frederick A. Zehrer.

Army Wants Finance Officers

The Army has issued a call for a limited number of finance officers who possess a master's degree or other special qualifications in accounting, business administration, economics or business science.

Announced in Circular 601-23, the program will waive the normal practice requirements for Finance Corps appointments. To qualify, however, applicants must have a minimum of a bachelor's degree.

All appointments under the program will be made in the Reserve grades of second and first lieutenant.

BOND DRIVE—65% GOAL

The Army reports in Circular 608-17 establishment of a 65% participation goal as the objective for the 1959 Savings Bond Program.

The Circular advises that a person-to-person canvass will be conducted during May, although commanders are authorized to change this to March or April in the event that field exercises, maneuvers, or similar activities make a May canvass impracticable.

Army Capeharts

Here is the list of new Capehart family housing units for which the Pentagon is seeking Congressional approval in fiscal '60 for Army families:

Inside U. S.	
ARADCOM Tac Sites	575
Ft. Huachuca, Ariz.	200
Ft. Eustis, Va.	223
Ft. Dix, N. J.	200

WHEN YOU TALK...DO PEOPLE LISTEN?

A MESSAGE FROM
Dr. J. Chapman Bradley

"You probably know—and perhaps have envied—people who never seem at a loss for words. In business, they always seem able to express opinions in words that carry weight and build a reputation for sound judgment. At social affairs, they talk easily and entertainingly whether the conversation turns to politics, golf, science, baseball, world affairs, or children. And whenever they talk, people listen.

"Why? What do they have that makes them both interesting and impressive? The answer is something we can all acquire—*broad knowledge*—and the quickest, surest, easiest way of adding to your knowledge is by having a set of the Encyclopaedia Britannica in your home. For almost 200 years, the Encyclopaedia Britannica has been recognized as the greatest treasure of knowledge ever published. It will pay you to glance through the plan described below which enables you to own the new edition of the Encyclopaedia Britannica easily and inexpensively. With this great storehouse of information at your fingertips, you will soon acquire the habit of 'looking it up in Britannica' and thus acquire the command of language... the interesting information... the authoritative knowledge that makes people listen when you talk."

ESSENTIAL IN EVERY HOME
WHERE EDUCATION IS RESPECTED

ENCYCLOPAEDIA BRITANNICA

Brand new edition now available direct from the
publisher on Book a Month Payment Plan

**Special Discount
to Military Personnel!**

you get all 24 volumes now—pay later!

The latest edition of Britannica—the greatest treasure of knowledge ever published—is now being offered at a *special discount* to Military Personnel on Active Duty only. All 24 handsome volumes of this world-renowned reference library will be delivered to your home NOW direct from the publisher. You pay later at a cost so low it is as easy as buying a book a month!

Equivalent to a library of 1,000 books!

The Encyclopaedia Britannica is the most valuable gift you can give yourself and your family—the priceless gift of knowledge. Information on every subject significant to mankind is contained in its new edition. It is equivalent to a library of 1,000 books, bringing you the knowledge and authority of world-recognized leaders in every field.

Just think of a subject, and you'll find it in the Encyclopaedia Britannica—whether it is a special subject applicable to your military career, such as Military Psychology, Nuclear Development, Veterans organizations—or subjects of general interest, such as information on the rules of a sport, the background of a religion, how to build a brick arch in a fireplace, the science of launching a guided missile.

The new Britannica almost "televises" informa-

tion to you, with 23,494 magnificent photographs, maps, and drawings. In every respect, Britannica is the largest and most complete reference set published in America, containing 26,000 pages and over 38,000,000 words.

Symbol of a good home

Encyclopaedia Britannica cannot help but have a lasting effect on you as well as on the growth and development of your children in school and in later life. Benjamin Franklin said: "An investment in knowledge pays the best interest," and Britannica gives you the accumulated knowledge of the world

in clear, easy-to-read language and superb illustrations. It is essential in every home where education is valued and respected.

Preview Booklet Offered FREE

Simply fill in and mail the coupon today, and we will send you... without cost or obligation... a copy of our beautiful, new booklet which contains an exciting preview of the latest edition of Encyclopaedia Britannica. Send no money—not even for postage. It's yours, absolutely free! However, since this offer is necessarily limited, please mail the coupon today before it slips your mind.

Mail Coupon Now for FREE BOOKLET

VAdm. Dennison Succeeds Adm. Holloway, VAdm. Austin Moves To DCNO Billet

VAdm. Robert L. Dennison will take the four-star post of CinC, Naval Forces Eastern Atlantic and Mediterranean. Deputy CNO (Plans and Policy), he was nominated 5 February by the President to succeed Admiral James L. Holloway, Jr., who is retiring.

Admiral Holloway, nominated for four-star rank on the retired list, retires "in the spring," according to the Navy.

VAdm. Bernard L. Austin, Commander, Second Fleet and Commander, Strike Fleet, Atlantic, will replace Admiral Dennison as Deputy CNO.

The President named RAdm. William R. Smedberg, 3d, Commander, Cruiser-Destroyer Force, Pacific Fleet, to succeed Admiral Austin in the three-star, Second Fleet assignment.

Admiral Smedberg's successor was not announced.

The President also nominated Vice Admirals George C. Townner and Hyman G. Rickover for three-star assignments. Both already are serving under interim appointments which were issued while the Senate was not in session.

Admiral Townner is Commander, Atlantic Fleet Amphibious Force. Admiral Rickover is Chief of the Naval Reactors Branch, Division of Reactor Development, U. S. Atomic Energy Commission, with additional duty as Assistant Chief of the Bureau of Ships for Nuclear Propulsion.

The President nominated Adm. Byron H. Hanlon, USN-Ret., for three-star rank on the retired list.

RAdm. Smedberg

Col. Lyon's Board Studies VTU Problem

Col. Harry N. Lyon, USMCR, will head a two-week board to be convened at Marine Corps Headquarters in March to study all aspects of the Reserve Volunteer Training Unit Program.

The panel will be composed primarily of officer-Reservists who are members of VTU's representing the seven Marine Corps Reserve and Recruitment Districts, as well as Air Reserve Training Commands.

The board has been charged with making recommendations for changes in existing regulations dealing with VTU's and their administration.

There are 261 VTU's throughout the country with a membership of about 4,000 officers and 390 enlisted men. They constitute the Corps' second largest continuing Reserve training program.

Colonel Lyon is Commanding Officer of VTU (G) 12-1, San Francisco.

Navy-USMC Capeharts

Here is the list of New Capehart family housing units for which the Pentagon is seeking Congressional approval in fiscal '60, for Navy and Marine Corps families:

Navy

NATO Council To Visit Norfolk SACLANT Hq.

The North Atlantic Council headed by the Secretary-General M. Paul-Henri Spaak will visit the headquarters of Admiral Jerauld Wright, USN, NATO's Supreme Allied Commander Atlantic, on 6 April, to participate in the Tenth Anniversary observance of the signing of the North Atlantic Treaty.

The Permanent Representatives of the 15 NATO member nations who hold the rank of Ambassador will be in the United States in conjunction with meetings and other anniversary observances.

The Norfolk visit will follow a meeting of the Council in Washington, D. C., the site of the signing of the original agreement on 4 April 1949.

Marine EM Offered 120-Day Early Out

Enlisted Marines having less than 120 days obligated service remaining upon return to the States from a normal overseas tour may elect early separation under a new Headquarters policy.

The individual must consent in writing to the early release, with the understanding that entitlement to pay and allowances and credit for active service ceases on the actual date the separation is made.

Officers Write Volume On Service Etiquette

"Service Etiquette," a 350-page volume presenting proper social usages from the military viewpoint has been published by the United States Naval Institute, Annapolis, Md.

Written by RAdm. Bruce McCandless, USN-Ret., Capt. Brooks J. Harrah, and Oretta D. Swartz, the book is directed to all Armed Forces officers and their ladies. Its 33 chapters cover correct social conduct under all circumstances an officer is likely to encounter, whether ashore or aboard ship.

Lt. Col. Harte Leads Parris Island H&S Bn.

Lt. Col. Franklin J. Harte has succeeded Maj. Nicasio J. Zagone as Headquarters and Service Battalion Commander at the Marine Corps Recruit Depot, Parris Island, S. C.

Major Zagone assumes duties as Battalion Legal Officer.

In another Depot billet shift, Maj. John M. Glenka, Schools Company CO, relieved Capt. Allan H. Robb as CO of Service Company. Moving into the post of Schools Company skipper is Capt. Thomas J. Burckell, reporting from Recruiters School. The Captain retains his status as Recruiters School Head.

Maj. Thomas J. Belt, Jr., has reported as Head of the Depot's Reserve Liaison Office. He will coordinate the training of 16 Reserve units to be instructed this Summer.

MSTS Test Leads To Nylon Line Use

The Military Sea Transportation Service, following 22 months' test use of nylon mooring lines aboard a cargo and passenger vessel, has ordered 20 additional nylon lines for use aboard ships owned by MSTS but operated for the service by private steamship firms.

Eight nylon mooring lines were installed in March 1957 on the USNS General W. O. Darby, a troop transport, and six aboard the USNS Kingsport Victory, a cargo vessel, both operating out of Brooklyn, N. Y.

Nylon lines of 5½" circumference replaced 8" manila lines, and lines of 6½" replaced 10" manila lines on the Darby. Five-inch nylon lines replaced 7" manila lines, and 5½" lines replaced 8" manila lines aboard the Kingsport Victory.

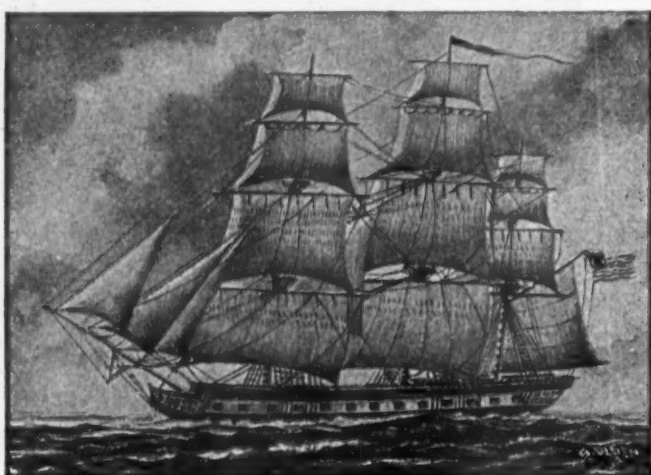

Average service life of manila lines on these two MSTS ships was six to nine months. The nylon lines already have outlasted the manila lines from two to three times. The Darby's officers project an additional 18 months' use of their present lines. Officers on the Kingsport Victory expect their nylon lines to give an additional 12 months' service.

2d Lt. Doughty Tops; Wins A Sword

Second Lt. Clifford C. Doughty has been presented the Marine Corps Association's sword for emerging as Honor graduate of the 535-man Basic Class 3-58 at the Marine Corps Schools, Quantico, Va.

A former enlisted man, the Lieutenant compiled a 97.62 scholastic average during the 30-week course. He has been assigned to the Communications Officers Orientation Course and upon completion will join the First Marine Division, Camp Pendleton, Calif.

The award was made 7 February by Lt. Gen. Merrill B. Twining, Schools Commandant. Maj. Gen. Wallace M. Greene, Jr., G-3, principal speaker at the ceremonies, presented diplomas to the new officers.

LOW COST PROTECTION. USF ESSEX. Originally fitted out in 1799 and built by public subscription the Essex afforded low cost protection for the people of the United States. Carrying 32 guns she gained fame on her famous raiding cruise in the South Pacific from 1812 to 1814.

Eighty years later, NAVY MUTUAL AID ASSOCIATION was founded. The purpose was to give low cost protection to members of the Navy, Marines, Coast Guard, and their families. For SEVENTY-NINE YEARS NMA has continued to provide this LOW COST PROTECTION.

Write us today for our free booklet that will explain the full services and benefits of NAVY MUTUAL AID to you.

ELIGIBILITY. All permanent and temporary officers and warrant officers of the Navy, Marine Corps, and Coast Guard, including reserve officers on extended active duty, and not over 62 years of age, are eligible.

BENEFITS IN FORCE.....\$190,000,000
ASSETS.....\$ 39,000,000

Maj. Clapp Invents Copter Computer

Maj. Archie J. Clapp, has developed and patented a pocket computer for helicopter pilots that makes it easy to calculate in a matter of minutes the loads that can be carried under varying atmospheric conditions.

A copter pilot, Major Clapp noted that there are times when a pilot taking off at sea level to make a rescue in the mountains had trouble at his destination because of the difference in atmospheric pressures. At the same time, he observed that some pilots tend to overestimate their margin of safety and fail to make

full use of the copter's potential.

Using the new computer, a pilot moves a series of dials accounting for all payload factors — temperature, altitude, humidity, wind, distance and ground speed.

Using the old method of computation, a pilot had to search several charts and then transfer readings from one chart to another to get the information.

Major Clapp, Assistant Staff Secretary to the General Staff at Headquarters, has given the Government free license to use the invention.

ROUTINE OR PRIORITY SHIPMENTS . . .

AIR FREIGHT

CAN SAVE YOU TIME AND MONEY

Do you still think of Air Freight for emergencies only? Then it's time you surveyed the facts. Scheduled Airlines Air Freight can save you days . . . sometimes weeks . . . and actually cost you LESS than the fastest surface shipping.

Scheduled Airlines Air Freight gives you hidden savings in storage and insurance costs with less damage and pilferage enroute. You will find that packing and crating are simplified because corrugated cartons may be used in many cases instead of expensive wooden crates. And just one government bill of lading covers the entire movement over the routes of as many airlines as needed.

Put these shipping advantages to work for you by sending *rush and routine* shipments via economical Scheduled Airlines Air Freight.

Compare Rates: A 200 lb. shipment of auto parts from Atlanta to Cleveland —

By the fastest surface shipping \$17.66
By SCHEDULED AIRLINES AIR FREIGHT . \$15.95

(Pick-up and delivery included in each case.)

For full information, call the Scheduled Airlines serving your part of the country.

... Widow Accepts Hero's Salute

Mrs. Dorothy Kincheloe, widow of the late Capt. Iven C. Kincheloe, Jr., USAF, who lost his life in a flight last July at the Air Force Flight Test Center, Edwards AFB, Calif., has received the Legion of Merit, awarded posthumously, from Brig. Gen. Marcus F. Cooper, USAF, Center Commander, as shown at the right.

Mrs. Kincheloe now resides in Orinda, Calif., with her son Iven C. Kincheloe, III, whom President Eisenhower has asked a future President to nominate for the USAF Academy, and her daughter, Jeannine Frances, born shortly after the death of the famed Captain.

At the time of his death, Captain Kincheloe was responsible for mediating and coordinating "Man in Space" efforts and was instrumental in establishing the X-15 rocket-powered research vehicle steering committee.

Space Liaison Unit Will Close At W-P

The Liaison Office of the National Aeronautics and Space Administration at Wright-Patterson AFB, Ohio, will close about 1 April.

NASA Administrator T. Keith Glennan said the decision to close the office was based on the growing diversity of research project details which the one-man office can no longer adequately handle.

The NASA Liaison Officer, William J. Underwood, has been appointed Assistant to the Chairman of the Civilian-Military Liaison Committee. He will also serve as Committee Secretary.

Shaw ISO To Korea

Maj. N. A. Frank, until recently Information Services Officer at Shaw AFB, S. C., is under orders for new assignment in Korea.

Modern Cargo Transports For MATS Would Also Spur Airlines, Douglas Says

IF the Military Air Transport Service is to accomplish its mission under any condition, it must shortly have on order substantial additions to its fleet of modern high-speed, long-range transports, with high cargo-carrying capability, Donald W. Douglas, Jr., president of Douglas Aircraft Co., told the Chamber of Commerce of Metropolitan St. Louis on 10 February.

"The military requirements are paramount," Mr. Douglas said. "They cannot be expected to perform miracles of deployment and supply with the aircraft at hand."

Mr. Douglas pointed out that, given the advantage of such a development for the military, the civilian airlines could, by 1965, be able to acquire commercial versions of these aircraft at favorable prices due to increases in the volume of production.

"With such aircraft," Mr. Douglas continued, "the airlines will be able to make an augmented contribution to an upturn in cargo transit speed, benefiting themselves, the national economy, and the National Defense."

"If the increase in military development is not presently forthcoming, it will be at least 1970 before the air lines can do their own financing. Should the more modern air transport become available in 1965, by 1970 the airlines could be flying more cargo ton-miles annually than passenger ton-miles."

As a final point, Mr. Douglas asserted that "the aircraft industry cannot be expected to perform the production miracles of the war years in the manufacture of the complex aircraft of today and tomorrow."

"To the national welfare, a healthy aircraft industry is a necessity. The industry cannot subsist on a diet of stop and go contracts."

The young industrialist predicted that if the cargo carriers are flying transports comparable in efficiency to the C-133 or the Douglas DC-8 in a cargo version, by 1965 it would be possible to reduce their direct operation cost to about four cents per ton mile, resulting in a 10 cent ton-mile rate, as against 21 cents today.

Col. Adams Of Williams Gets Featured Spot

Col. Milton B. Adams, Commander of Williams AFB, Ariz., was given a featured place during the meeting of TAC ISO's last week at Langley AFB, Va.

After opening remarks by General O. P. Weyland, TAC Commander, Colonel Adams spoke on the use of a base newspaper as a medium for personal contact.

A veteran of 275 combat missions, Colonel Williams writes a weekly column, "Commander's Corner," in the Williams Jet Gazette, which repeatedly has won TAC honors for best editorial page.

Biggs Aero Club Elects

The Biggs AFB, Tex. SAC Aero Club has reelected as president Lt. Col. William H. Cooper, 336th Bomb Squadron Commander.

Others in the new slate include: Capt. Donald MacDonald, Vice-President; Maj. Robert W. Peak, Operations; M/Sgt. Owen Nading, Secretary-Treasurer and A/2C Dennis Lunsford, flying safety officer.

Maintenance Officer is A/1C Cornelius J. Meyer and Communications Officer is M/Sgt. Donald E. Stauffer.

Walker Aero Club Grows

The SAC Aero Club at Walker AFB, N. M., has expanded their aircraft inventory with a purchase of four Cessna planes. Maj. William R. Norton, President, reports the acquisition of two Cessna 175s (four place) and two Cessna 150s (two place).

The transaction, which involved trading in the club's old Cessna 172, was made possible by a loan from the Enchanted Credit Union.

Duty Switch at Hamilton

Commanders, adjutants and sergeants major of two units at Hamilton AFB, Calif., have exchanged posts.

Col. Paulett Spivey, CWO Jay C. Groth, Jr., and M/Sgt. Carl H. Bush, reassigned from the posts of commander, adjutant and sergeant major, respectively, of the 78th Maintenance and Supply Group, take over the same posts with the 78th Air Base Group.

They were replaced at the 78th M&S Group by their counterparts in the 78th ABG, Col. Rupert C. Welch, 1st Lt. Shelton D. Sorenson, and T/Sgt. Charles D. Zell.

AF Capeharts

Here is the list of new Capehart family housing units for which the Pentagon is seeking Congressional approval in fiscal '60 for Air Force families:

Blytheville, Ark.	470
Bunker Hill, Ind.	300
Clinton County, Ohio	150

Comptroller Peers Into Garbage Cans

Following a complaint from an unsuccessful bidder for the garbage concession at Holloman AFB, N. M., Comptroller General Joseph Campbell has promised that his audit staff will look into the cleaning of garbage cans at Air Force installations.

The garbage man had asserted that "this unusual procedure" of requiring garbage collectors to clean and sterilize cans used on base residential areas doubles the ordinary cost of garbage collecting.

"For the sake of economy," the bidder said, "we suggest that each resident care for his own garbage can."

Col. Brady Commands England In 834th Shifts

Col. Bert M. Carleton, Base Commander at England AFB, La., has been succeeded by Col. William D. Brady, Director of Operations for the 834th Air Division.

Colonel Carleton will become Director of Materiel for the 834th.

Lt. Col. Richard E. Freeman is the new Air Base Group Executive Officer, succeeding Lt. Col. Arlo C. Henry, who is being transferred.

Lt. Col. Wiltz P. Segura, Aircraft Maintenance Officer for the deactivating 366th Wing, will assume the responsibilities of 401st Wing Director of Materiel and Chief of Maintenance formerly held by Colonel Freeman.

The further we progress,
the more important
experience becomes in solving
today's most urgent problems.

Lt. Col. Rigney's F-104's "Combat Ready" At W-P

The 56th Fighter-Interceptor Squadron, equipped with Lockheed F-104 Starfighters, has been placed in "combat ready" status.

Lt. Col. Charles E. Rigney, Commander, officially placed the Starfighters on a ready-to-flight status during ceremonies attended by civic leaders and news media representatives from throughout the Midwest.

The 56th FIS, a unit of the Air Defense Command operating out of the Air Materiel Command headquarters base, was previously equipped with F-86 Sabrejets.

The strategic location of the 56th FIS at Wright-Patterson AFB enables them to position F-104's over Chicago in 12 minutes and 6 seconds—over Detroit in 9 minutes and 30 seconds—and over Cleveland in just 9 minutes from takeoff.

TOPS IN 16th AF, ZARAGOZA WINS \$4000

Zaragoza AB, Spain, has been named "the most outstanding base" in the Sixteenth Air Force during a six-month period ending 31 December, according to Maj. Gen. H. K. Mooney, Sixteenth Air Force Commander.

The presentation of the Commander's Achievement Award was made to Col. Lloyd W. Preston, Commander, 3974th Air Base Group.

The award, consisting of \$4,000, is given to the Sixteenth Air Force base selected as the most outstanding over a six-month period. This amount has been made available to the commander, Sixteenth Air Force, from nonappropriated funds and is for use by the winning base commander for the benefit of his base and personnel.

M/G Sweeney Drops Boom On Lt. Col. Bachtell

Honors for the most improved Eighth Air Force air refueling record during December 1958 have been accorded the 99th Air Refueling Squadron of Westover AFB, Mass.

Maj. Gen. Walter C. Sweeney, Jr., Eighth Air Force Commander, presented a silver boom trophy to Lt. Col. Robert Bachtell, 99th Commander, during the monthly Air Refueling Conference last week.

Hot Flight From Phoenix

Lt. Leland L. Johnson, 20th Tactical Squadron, 432d Tactical Reconnaissance Wing, recently flew an RF-101 McDonnell Voodoo from Luke AFB, Phoenix, to Shaw AFB, S.C. 1,920 miles, in two hours and 50 minutes, an unofficial record between these points.

Average speed was 700 miles-per-hour.

B/G Rees At Orlando Names St. Louis Film Chief

Capt. Robert E. Mazurowski has been designated to command the Air Force Film Library Center in St. Louis, Mo., by Brig. Gen. Clifford H. Rees, Commander of the Air Photographic and Charting Service, Orlando AFB, Fla.

Operating as the main motion picture distribution center of the Air Force, the film library ships over 500 films per day to its customers—the Air Force and the American people. Overseas areas are served by detachments of the library in Weisbaden, Germany, and Tachikawa, Japan.

Captain and Mrs. Mazurowski will reside in the St. Louis area with their three sons, Paul, 7; David, 5, and John, 3.

when you can't see the forest for the trees

Now THE COMPANY COMMANDER can see the complete tactical picture. Giving him a view point from the air, the Hughes YHO-2HU—for the first time—makes it practical for him to have this vital combat advantage.

The YHO-2HU is the first low-cost, fully reliable, easily maintainable, high performance helicopter available for the

2-place observation and liaison mission.

With its time-proven Lycoming piston engine, the YHO-2HU flies at 85 m.p.h. speeds, with a range of 150 miles. This speed plus its hedge-hopping ability and extremely small silhouette reduce the hazards of enemy fire. Its small size and light weight makes it easy to land, park and conceal.

Major components, such as the engine, rotor systems and multiple belt drive clutch can quickly be removed as independent assemblies. No special tools are required for any or all field maintenance operations.

For an illustrated, detailed brochure describing the YHO-2HU, please write to the following address:

Congress Should Call More Combat Commanders

The Congress, anxious over the combat readiness of U. S. Fighting Forces, would do well in the weeks ahead, during detailed examination of the fiscal '60 budget, to summon more combat commanders from the field to testify on Capitol Hill.

We say this in the wake of the dynamic presentation made by General Thomas S. Power, Commander-in-Chief of the Strategic Air Command, during Senate hearings. As reported exclusively in last week's issue of THE JOURNAL, General Power avoided any entanglement in politico-economic matters. He spoke forth on what action he, as a professional military leader, deemed essential to strengthen National Defense.

General Power, as a combat commander, was careful not to separate the need for improved weapons from the need for continued improvement in the caliber of career military people. With a vigor that has been lacking at the Pentagon during recent months, he spoke out in support of action to raise the attractiveness of career service.

The SAC CinC, with the full facts at his instant command, explained the need for improved promotion opportunities, noted that the SAC "spot promotion" plan could be periled by declining vacancies Air Force-wide.

General Power, whose command pays attention to all possible details, outlined for the Senators a broad program of action to improve combat readiness by enhancing military service.

He spoke of the need for more housing, of a special "alert pay" for certain SAC crewmen, restoration of PX privileges, and the elimination of the surcharge on commissary purchases.

In short, what General Power is seeking for his people is full recognition for the contribution they are making to the security of the Free World. In his appearance before Congress, General Power laid the facts squarely on the line. The legislators received, and welcomed, a politically-free, professional assessment of SAC's readiness to perform its mission. The Senators learned also of actions which should be taken to raise this combat readiness.

Throughout the Strategic Air Command, military men and their families knew that their chief was fighting hard in their behalf.

Filling This Military Need Would Spur Civilian Progress

A clear instance of where a much needed modernization program for the Armed Services would contribute directly to the national economy lies in the purchase for the Military Air Transport Service of high-speed, long-range air transports with huge cargo-carrying capacity.

In pointing this out (see story on page 8), Donald W. Douglas, jr., president of Douglas Aircraft Co., also called attention to the fact that modern cargo aircraft could save the taxpayers money. "As we increase the capacity and speed of our cargo transports, whether military or commercial," he said, "one important achievement will be substantial reduction in operational costs, and increased profit, whether the operator be the Air Force or an air line."

Orders for the much-needed modern military cargo carriers would enable the aircraft industry to get into production on this equipment, so that the unit price could be reduced to a point where civil airlines could afford to buy them. With modern equipment, Mr. Douglas contends, airlines could cut their air freight rate in half and thus vastly increase the amount of freight shipped by air. In 1956, 386 million ton-miles went by air. With a ten cent per ton-mile rate, he estimated this would increase to 5 billion ton-miles. This latter figure would still represent only about one-half of one percent of the total domestic freight traffic market, he said, so that other modes of transportation would not suffer.

The last Congress was impressed by the need for modernizing MATS—so much so that it added substantially to the President's budget to provide for it. But the administration has thus far not seen fit to commit this money for airlift. We hope this Congress will emphasize its determination by putting language in the bill that will make use of the airlift funds mandatory instead of permissive.

New York Times Joins Journal's Fight To "Right A Wrong" For Retired

THE New York Times, in an editorial published in the 8 February issue, under the title "To Right a Wrong," has called for action to equalize retired pay benefits for all military personnel.

THE JOURNAL, in an editorial published in the 31 January issue, said that "correlation between active and retired pay is an established principle in the American military system. . . . The prospect of retirement with its traditional rights and privileges is one of the strongest reasons why men make careers in the Armed Services."

"When they see these rights being abrogated in such vital areas as pay, family protection, and job opportunities," THE JOURNAL editorial stated, "their enthusiasm for Service careers wanes."

The New York Times, in a similar vein, published the following editorial:

"The military pay bill enacted by Congress a year ago established two groups of retired personnel. Those members of the armed services who retired prior to the passage of the legislation received a 6 per cent retired-pay increase; those who retired after the legislation was enacted are receiving a considerably higher pay—for the same rank and the same wrong."

length of service.

"In the case of the former group the historic principle of keying retired pay in proportion to active pay was violated; in the case of the latter group it is retained. In other words, last year's military pay bill created two classes of military citizens—first and second grade.

"This discrimination was voted by the last Congress despite the recommendations of the Cordiner committee, which made a comprehensive study of means of increasing the attractiveness of a service career. The committee explicitly stated that 'military retirement and its firm tie-in with active-duty compensation is perhaps the most powerful long-term career incentive existing within the military compensation system ***'. The incentive value of (the) military retirement program depends to a major degree upon its integral relationship with active-duty compensation and the confidence which has been built up in the military body that no breach of faith or breach of retirement contract has ever been permitted***."

"To many retired personnel, the 1958 pay act appears to have broken faith. Congress owes it to men who have served long and well to right a

READERS' VIEWS

Regular-Res. Retirement

■ Your edition of 7 February contains an able and generally fair article, starting on page 2, on the work of our group, the Retired Reserve Committee of the Res. OA, and other associations, to restore to the law the retired pay provisions of the Pay Readjustment Act of 1942/1949, thus far perverted by administrative and judicial errors. Your comment on this matter is appreciated, but contains one factual error worthy of correction. In next to its last paragraph, your article states categorically that "at least 15 years active service is needed for Regular officers to qualify for the 75% retirement based on service in both World Wars." While such has been the contention of our opponents of the Regular persuasion, it is factually untrue.

The 1935 Act on which they rely did contain such a provision, but it was amended in 1940 by a law (54 Stat. 379) which in essential part reads (for it is still the law) as follows:

"Provided, that any officer who served in any capacity as a member

of the military or naval forces of the United States prior to November 12, 1918, shall upon his own application be retired with annual pay equal to 75 per centum of his active-duty annual pay at the time of his retirement unless entitled to retired pay of a higher grade as hereinafter provided."

The introduction of a Bill to revert back to the long-superseded AD limitations of the repealed 1935 provisions can have only one purpose; namely, to exclude from maximum retirement virtually all Reserve component officers, now that substantially all possible Regulars have achieved its benefits. If they could get away with it, this would certainly leave the Regular canine quite cozy and secure in his manger.

FLOYD OLES, LT. COL., USAR-Ret.

Army Agrees With Navy

■ It is apparent at the higher echelons of our defense establishment that one service cannot speak for another—perhaps, herein lies one of our greatest causes of inter-service disunity; but, Commander (General Line) USN, who wrote the very excellent view on line officers' incentive pay (10 Jan. '59 issue) can speak for me anytime. He has summed up my view, and I know from conversations, hundreds of other line and combat officers.

N. F. J. ALLEN
MAJOR, INFANTRY, USA

IN THE JOURNAL

10 Years Ago—Representative Carl Vinson, Chairman of the House Committee on Armed Services, decided this week to proceed with consideration of the Service Pay bill in spite of the fact that it has not been cleared by the Bureau of the Budget.

50 Years Ago—There is talk of making aeronautics a featured study in the curriculum at the Naval Academy. The belief is strong in Navy circles that ere long all the leading navies of the world will give much attention to the navigation of the air as well as the sea and that for scouting purposes a knowledge of aviation will be indispensable to every fleet in being.

95 Years Ago—The action of the House of Representatives in stripping the new conscription bill of all the few improvements introduced by the Senate, gives promise that we are after all to have the same old defective and inconsistent bill that the last Congress gave us.

Who Is The Rater?

■ It is generally known that the OEI is basically the controlling factor for promotion, and as such every officer immediately becomes vitally interested. It is known that the OEI is arrived at by efficiency reports rendered over a period of years. This seems to be very proper and is not in question. The big questions are:

1. How is the final rating arrived at?
2. How can a final rating be determined by an uninterested party that has none other than paper knowledge of the rated?

3. How can a rater justly and honestly appraise an officer when he has no knowledge of the final evaluation?

The final rating should be the responsibility of the rater and not left to a slide rule formula. Why should we continue working in the dark?

COL. INF.

New Air Force Management Agency Coordinates Air Defense Planning, Implementation

By KENNETH P. BERGQUIST, MAJOR GENERAL, USAF
Commander, Air Defense Systems Integration Division

THE Air Force has established a new management agency called the Air Defense Systems Integration Division (ADSID). Its purpose is to coordinate air defense planning, programming, and implementation in accordance with Air Force responsibilities. The organization is located at Hanscom Field, Bedford, Mass.

General Bergquist

Air Force Regulation 20-13 prescribes the mission of ADSID—"provide the necessary managerial guidance for command action required to insure an effective, properly time-phased, and technically compatible integrated air defense mission system, in accordance with approved plans, requirements, and procedures." The air defense mission system consists of all weapons systems, electronic environment systems, and support systems employed in air defense.

Human "Links" Replaced

To insure that the nation possesses the best feasible air defense capability, special effort is required to integrate the various and complex components of the air defense mission system. In the past, the operating command could accomplish the integration by using men as conversion links in utilizing the separate components; however, the required increase in automaticity largely eliminates the human conversion links and replaces them with mechanical and electronic devices. Effective air defense now demands technically compatible and highly automatic components, designed, developed, produced and installed to mesh with the requirements for an over-all integrated system.

The air defense mission system must be continuously operational; therefore, time-phasing of changes or additions, and component relationships, are exacting stipulations. System integration has become a very intricate mixture of operational requirements, technical development and logistic support. Involved in this mixture are the efforts of the scientific community and industry, as well as various functional military organizations and other government agencies. Coordination of activities to achieve air defense systems integration does indeed require a special management effort—an effort specialized and detailed to the point of being inappropriate to the Pentagon policy level, yet beyond the assigned functional responsibilities of the commands involved.

July 1957 Start

In July 1957 the Air Force established the air defense systems management office (ADSMO) as a joint ARDC-AMC-ADC organization to provide the managerial guidance for integration of air defense systems. Experience resulted in the decision to reinforce ADSMO, redesignate it as the Air Defense Systems Integration Division and support the organization with a technical group in the form of a central contractor. In March 1958 Secretary James H. Douglas enunciated the concept and basic policies by stating:

"For the past number of years the Air Force has been vitally concerned regarding the difficult task of integrating both the ground environment and the weapons associated with the ground environment to insure that this nation will possess the best possible air defense capability. Proposals were made over a year ago on the organization of an

integrated command structure of personnel from ADC, AMC and ARDC to form the nucleus of an air defense team which could be supported by a civilian technical systems management team.

"To further improve the status of this Air Force organization which is now called the Air Defense Systems Integration Division, the Air Force has appointed Major General K. P. Bergquist to command this organization. In this capacity, General Bergquist will have ample authority comparable to that employed by the Commander of the Ballistic Missile Division in his field, to make final decisions for the Air Force on the integration of the air defense mission systems. He will have effective control of the funds necessary to discharge the system engineering responsibility of his office and to implement his decisions."

ADSID Gets Start

On 31 March 1958 the Air Force published AFR 20-13 prescribing policy and responsibilities for the formation, organization, and operation of ADSID. The new organization is a joint office manned by AMC, ARDC and ADC. The Commander ARDC is the Executive Agent. The ADSID is charged with analysis, guidance and monitoring, but not with responsibility for implementation of individual systems. Such implementation remains charged to appropriate commands in accordance with their assigned functions. The senior ADSID representatives of AMC, ARDC and ADC function as ADSID staff officers and also as senior members of the respective command's staff.

The regulations assigned the following tasks to ADSID: (1) Assemble and maintain a current master plan and schedule for development and implementation of approved additions and improvements to the air defense mission system; (2) Assemble and maintain a current set of individual system performance specifications; (3) Conduct analysis and initiate necessary actions or corrective measures to insure compatibility and effectiveness of components, systems and supporting activities; (4) Monitor progress of actions and insure coordination, with respect to development, implementation, plans, schedules and funding; (5) Assist ADC, ARDC and AMC in forming their plans as they pertain to the air defense mission; (6) Develop test concepts to be used as a basis for system testing programs, and (7) Evaluate requirements, established by other agencies, which affect the air defense mission system.

Contract With M.I.T.

On 30 July 1958 the Massachusetts Institute of Technology entered into a contract with the USAF to serve as "principal systems advisor" on an interim basis to the ADSID. MIT proposed that the support should ultimately be given by a separate non-profit organization, and agreed to sponsor such a corporation and support it until it could operate independently. As a part of the agreement, it was planned that those Lincoln Laboratory people directly engaged in ADSID support would be transferred to the new corporation as rapidly as possible and that the new corporation should seek a direct contract with the Air Force as soon as this could be arranged. The MIT proposal was accepted by Secretary Douglas.

The new systems engineering organization was formally incorporated as the MITRE Corporation. Heading the Board of Trustees is H. Rowan Galtner, Jr., Chairman of the Board of the Ford Foundation. The Executive Committee is chaired by William A.

Webster, Executive Vice President of the New England Electric System. Included in the Board of Trustees are such well known individuals as Luis W. Alvarez, Charles A. Coolidge, Dr. Julius A. Stratton, and Robert C. Sprague. The President of MITRE is Mr. C. W. Halligan, formerly Director of Military Engineering at the Bell Telephone Laboratories.

The Systems Integration task centers around the point at which decisions are made to introduce changes and additions to the Air Defense Mission System. The principal function is to insure that the resulting system works and that it—or major segments—can be turned over to the operating commander on a specific date.

Solving the many and varied integration problems requires the utmost in team-work. Scientific-industry-military team effort is applied to the problems to make thorough analyses, carefully balance the operational-development-logistic factors, advise as to priorities of effort within budget limitations, and prepare the managerial guidance required for coordinated action—"to insure an effective, properly time-phased, and technically compatible integrated Air Defense Mission System."

Key People At ADSID

In addition to General Bergquist other key officers at ADSID include:

Col. C. A. Thorpe, Deputy Commander for Programming; Col. W. H. Tetley, Deputy Commander for Engineering; Col. C. S. Segrist, Director of Logistics; Col. R. B. Hughes, Director of Requirements; Col. J. A. Jack, Director of Development; Col. W. C. McLaughlin, Director of Test and Evaluation.

Lt. Col. J. L. Lombardo, Director of Special Projects.

General Bergquist, born in Crookston, Minn., on 21 November 1912, was graduated from the U. S. Military Academy on 12 June 1935 and was commissioned in the Field Artillery.

He completed Air Corps Advanced Flying School in October 1936 and transferred to the Army Air Corps.

His first tactical station was at Langley Field, Va., as Aircraft Commander and Adjutant 37th Attack Squadron, 1936-37; Assistant Operations Officer 8th Pursuit Group, Langley, 1937-38; Assistant Operations Officer 2d Wing, Langley, 1938-39; Operations Officer 18th Pursuit Group, Hawaii, 1939-41; Operations Officer 7th Fighter Command, Hawaii, 1941-42; Staff Operations Section, Headquarters Army Air Forces, Washington, 1942-44.

He became Operations Officer 73d Bomb Wing, Saipan, 1944; Operations Officer 7th Fighter Command, Iwo Jima, 1945; Deputy Assistant Chief of Air Staff for Operations, Headquarters, AAF, Washington, 1946-47; Air Attache, Greece, 1947-49.

After graduating from the National War College in June 1950; he was Director of Plans and Requirements, Headquarters Air Defense Command, Colorado Springs, Colo., 1950-51; Deputy CofS for Operations, Air Defense Command and Continental Air Defense, Colorado Springs, 1951-55; Director of Operations, USAF Headquarters, 1955-57; Assistant Deputy CofS for Operations, USAF Headquarters, 1957-58; and Commander, Air Defense Systems Integration Division, L. G. Hanscom Field, Bedford, Mass., 1958.

General Bergquist and his wife, the former Alice Starke Porterfield of Berkeley, Calif., have two children, Linda Elizabeth, and Kenneth Paul, Jr.

New Members Assigned To House, Senate Military Appropriations Subcommittees

SENATE

DENNIS CHAVEZ (NM), CHAIRMAN

Democrats	Republicans
Hayden (Ariz)	Saltonstall (Mass)
Russell (Ga)	Bridges (NH)
Hill (Ala)	Young (ND)

Whitten (Miss)	Lipscomb (Calif)
Andrews (Ala)	Weaver (Neb)
Riley (SC)	Minshall (Ohio)
Flood (Pa)	Thomson (Wyo)
Thomas (Tex)	
Boyle (Ill)	

Seven new members have been assigned to the Senate and House Military Appropriations Subcommittees.

The Senate Committee, headed by Senator Dennis Chavez (D-NM) is composed of 10 Democrats and six Republicans. New members are Senators Lyndon Johnson (D-Tex), John Pastore (D-RI), and Karl E. Mundt (R-SD). One new ex-officio member, Senator Francis Case (R-SD) of the Armed Services Committee also was added.

The House Committee, headed by Representative George H. Mahon (D-Tex), retained the same 10 Democrat-7 Republican ratio which it had in the 85th Congress. As a result of election defeats and resignations, however, four new Republican members were added: Representatives Glenard P. Lipscomb (Calif), Phil Weaver (Neb), William E. Minshall (Ohio) and Keith Thomson (Wyo).

Here is the complete membership of both committees:

UNIFICATION'S HIDDEN PROBLEM, the nebulous powers of the Assistant Secretaries of Defense, is coming sharply to the foreground as a result of the implementation of the Defense Reorganization Act of 1958. One of the objectives of the Act was to end the confusion in the Pentagon chain of command.

AS REPORTED IN THIS ISSUE, the confusion persists, quite obviously in the field of public information, where the Joint Chiefs have elected not to create a public information office to help in carrying out their greatly increased global responsibilities. Under a Pentagon proposal, which would authorize Assistant Secretary Snyder to issue public information directions to the unified and specified commands, a situation could develop in which his instructions were different from those sent out by the Joint Staff. Chairman Vinson of the House Armed Services

Committee has warned Secretary McElroy that Congress did not intend that Assistant Secretaries of Defense should be in the chain of command to the unified and specified commanders.

ONE REASON THE JCS doesn't want its own PubInfo set-up is that their PIO's would be levied against the 400 officer limitation. More important, the JCS believes its chances of remaining free from "political pressures" would be greater if it stayed out of the public information business.

ON THE OTHER HAND, if public information activities are recognized as a function of the command, then it is difficult to see how the JCS can shunt them aside.

THE IMPACT OF CURTAILED OBSTETRICAL CARE for Service wives by civilian physicians—restrictions were imposed last October—is pointed up with The Journal's disclosure (Page 18) of an acute shortage of qualified medical specialists in the Armed Services. Official Pentagon statistics, made available by the Defense Department after some reluctance by the Services, show that there are only 238 specialists in obstetrics and gynecology on active duty—badly distributed among the Services—compared with a requirement for 403 physicians with this qualification.

THE NAVY HAS ALMOST HALF of the obstetricians in uniform—109. The Air Force, whose wives had been making the most extensive use of MediCare obstetrical services because of the shortage of military facilities, has the least—only 43 obstetricians. It needs 151. The Army reports a requirement for 143, but has only 86 on active duty.

PEDIATRICS IS A BRIGHTER PICTURE, with the Services reporting availability of 228 specialists against a requirement of 290. The Army has 113 pediatricians; Navy, 61; and Air Force, 54.

SERVICE FAMILIES SHOULD DISCOUNT the Pentagon's statement that "more up-to-date and varied programming" on Armed Forces TV stations is expected to result after 1 March when "hardsell" commercials will be eliminated from the telecasts. The decision to cut the commercials was revealed in The Journal 17 January and was confirmed by an official DoD release 6 February. The forecast of improved programming bucks the fact that a much greater use will have to be made of the Armed Forces library of old TV kinescope reels. Because of the switch of commercial television networks from kinescope reels to the new video tape process, the Services will have to pay for most of the kinescope reels they previously received free. To convert military stations to the commercially-used video tape would also cost \$3.5 million—a need that is not reflected in the fiscal '60 budget.

VERSATILITY OF THE ARMY MAP SERVICE has been documented anew with the disclosure that it was responsible for the design concept of the new underground shelter built by the Army Engineer Research and Development Laboratories at Ft. Belvoir, Va., to provide protection against atomic weapons effects. Prototype tests, conducted at Yuma, Ariz., using conventional explosives under high blast conditions, showed that the shelter, 68 feet long and 10 feet wide, was able to withstand blast pressures up to 60 pounds per square inch.

A TOUCH OF LEBANON has come to Ft. Bragg, N. C. The 1st Airborne Battle Group, 187th Infantry, deployed to Lebanon from Germany last summer, returned to the U. S. this week for duty with the 82d Airborne Division. Among the arrivals with the battle group was a donkey named "Marahaba" (means "Good Day" or "Greetings"), which had traveled to Germany when the paratroopers departed Lebanon.

RADM W. R. SMEDBERG, III, who was picked 68 numbers below the promotion zone when he won two-star rank in August 1953, again has been vaulted over his seniors. His nomination for three-star rank (see page 6) will move him ahead of 104 upper half rear admirals who now outrank him.

AN AVIATION CADET IN 1956, 2d Lt. Gail D. Helvie has been designated to be a B-52 co-pilot with the 330th Bombardment Squadron at Castle AFB, Calif.—possibly the only officer of that rank to hold such a slot. His aircraft commander is Maj. Pat Lewis; Lt. Col. Jack O'Reagon is Squadron Commander. Lieutenant Helvie began B-52 training last July.

SCIENTISTS IN UNIFORM should not be restricted by being given Staff Corps designators, according to the Navy R&D Chief, RAdm. John T. Hayward. He has told Congress the best utilization of scientists in the Navy would be realized if they were placed in the Line. The admiral said that line officer status for a scientist would provide him a better understanding of operational requirements and better chances for promotion. Admiral Hayward, who referred to himself as a "physicist third class," is a line officer whose command includes duty as skipper of the Carrier FDR.

CAPT. ROBERT G. GARDE, jr., son of Maj. Gen. and Mrs. Garde, who commands the VIII Reserve Corps at Austin, Tex., has been awarded the Commendation Ribbon at West Point for assembling, editing and publishing a self-evaluation study of the Military Academy. This was accomplished as a prerequisite for accreditation by the Middle States Association of Colleges and Secondary Schools. A 1950 USMA graduate, Capt. Garde completed this task while fulfilling duties as an instructor in the Department of Social Sciences.

IMPROVED MILITARY LIBRARIES are expected to result from a study being conducted under the auspices of the Armed Forces Section of the American Library Association. An inter-Service committee is expected to make a report on Service libraries to the ALA Conference in Washington 21-27 June.

THE PACIFIC MISSILE RANGE is headed for a major expansion that could cost \$2 billion in the next five years and \$2 billion in the succeeding decade. The range, which cost about \$30 million to operate in 1956, will require an annual expenditure of about \$246 million in 1963 for new construction, operation, maintenance, and salaries.

THE AIR FORCE REPORTS difficulty in obtaining adequate numbers of Information Services Officers in the grade of captain and major. One reason has been "the lack of career motivation of many of the junior officers who have been assigned as ISO's." The Air Force also says there has been a lack of aggressive command selection actions. To remedy this situation, Headquarters will provide command ISO's with the names of officers with experience in the field and will request that these officers be contacted to ascertain the possibility of their reassignment to the information field. Not only in the Air Force, but in the other Services as well, there is a widespread feeling among information officers that their chances for promotion are jeopardized by continued duty in this field. The Service information chiefs have attempted to remove these fears, but the facts are that they persist.

THE AIR FORCE'S 1370th PHOTO MAPPING GROUND at Turner AFB, Ga., next month receives the first 3 of 15 turbojet Lockheed RC-130's. Primarily a TAC cargo transport, the aircraft, dubbed the "See-130" at Turner, will be used for world-wide photographic and geodetic survey missions. The 1370th now operates RB-50 and RC-45 piston-powered aircraft.

THE CLOSE COOPERATION between U.S. and Canada in the missile field is demonstrated at Redstone Arsenal, Ala., where two Canadian officers are members of the first Hawk class at the Ordnance Guided Missile School. Although the Marines will use the Hawk, there are no Leathernecks in the initial class. It has been reported that the entire Hawk training program would be shifted from Huntsville to Aberdeen Proving Ground, Md. Army officials at the Pentagon, queried by The Journal this week, would say only that the matter is under study.

THE AIRMEN-OFFICER RATIO in the Air Force is slated to hold steady at 1-5.73, exclusive of the non-rated officers who are in flying training. In the warrant officer ranks, the Air Force is projecting a drop from 4463 last October to 4210 on 30 June 1960.

A NIKE ZEUS PROJECT OFFICER has been named at the Army Air Defense School, Ft. Bliss, Tex. He is Lt. Harl G. Graham, USMA '53. He had served in the Medium Altitude Department at the School.

AIRCRAFT OVERHAUL ACTIVITIES in the Services may be brought under Industrial Fund financing. The Defense Department is studying the idea.

THE ARMY'S CRACK 101st AIRBORNE DIVISION at Ft. Campbell, Ky., could be looking for an intra-mural scrap. A recently issued press release from the "Screaming Eagles" notes in paragraph one that "the 101st is acknowledged to be the most combat-ready in the U. S. Army today." Aside from possible ZI backfire, from other STRAC divisions, the 101st must be ready to defend the "acknowledged" claim against the proud combat-readiness claims of units of the Seventh Army in Europe and the Eighth Army in Korea.

THERE'S ONE CLAIM the 101st Airborne Division can make which is dispute-proof. M/Sgt. Henry Slomanski of Ft. Campbell is the highest ranking member in the United States of the Karate Federation. He is the Karate Federation Commissioner for the United States and Hawaii. Founded 2600 years ago by Buddhist Monks of China, Karate is described as a "moral, mental and physical science which is progressive by degrees."

DEPARTMENT OF DEFENSE

The Hon. Dwight D. Eisenhower, Commander in Chief of the Armed Forces
Military Liaison Officer—Brig. Gen. Andrew J. Goodpaster, USA

New Posts For Army Colonels

Col. Stanley G. Reiff, assigned to the Office of the Chief of Engineers since January 1956, will become Deputy Division Engineer, Southwestern Division at Dallas in May. He served as Acting Chief of Engineers for Civil Works for several months last year in the absence, due to illness, of Brig. Gen. John L. Person.

Colonel Reiff will succeed **Col. Robert L. Mushen**, whose assignment will be announced later.

Col. Preston M. Motes, Fourth Army Quartermaster since July 1956, this month assumes similar duties at CONARC Headquarters, Ft. Monroe, Va.

Col. John W. Hansborough is the new CofS, U. S. Army, Alaska. He succeeded **Col. A. N. Slocum, Jr.**, who retires after more than 32 years' service.

Col. John Embry has been named Comptroller of the Fourth Army. He had been Special Projects Officer and Chief of the Management Services Division in the Comptroller Section.

With his wife, Jeanette, he resides at 8 Staff Post, Ft. Sam Houston.

Col. Raymond B. Firehock has been assigned to Korea as Chief, Armistice Affairs Division, Headquarters, UN Command and Secretary, Military Armistice Commission.

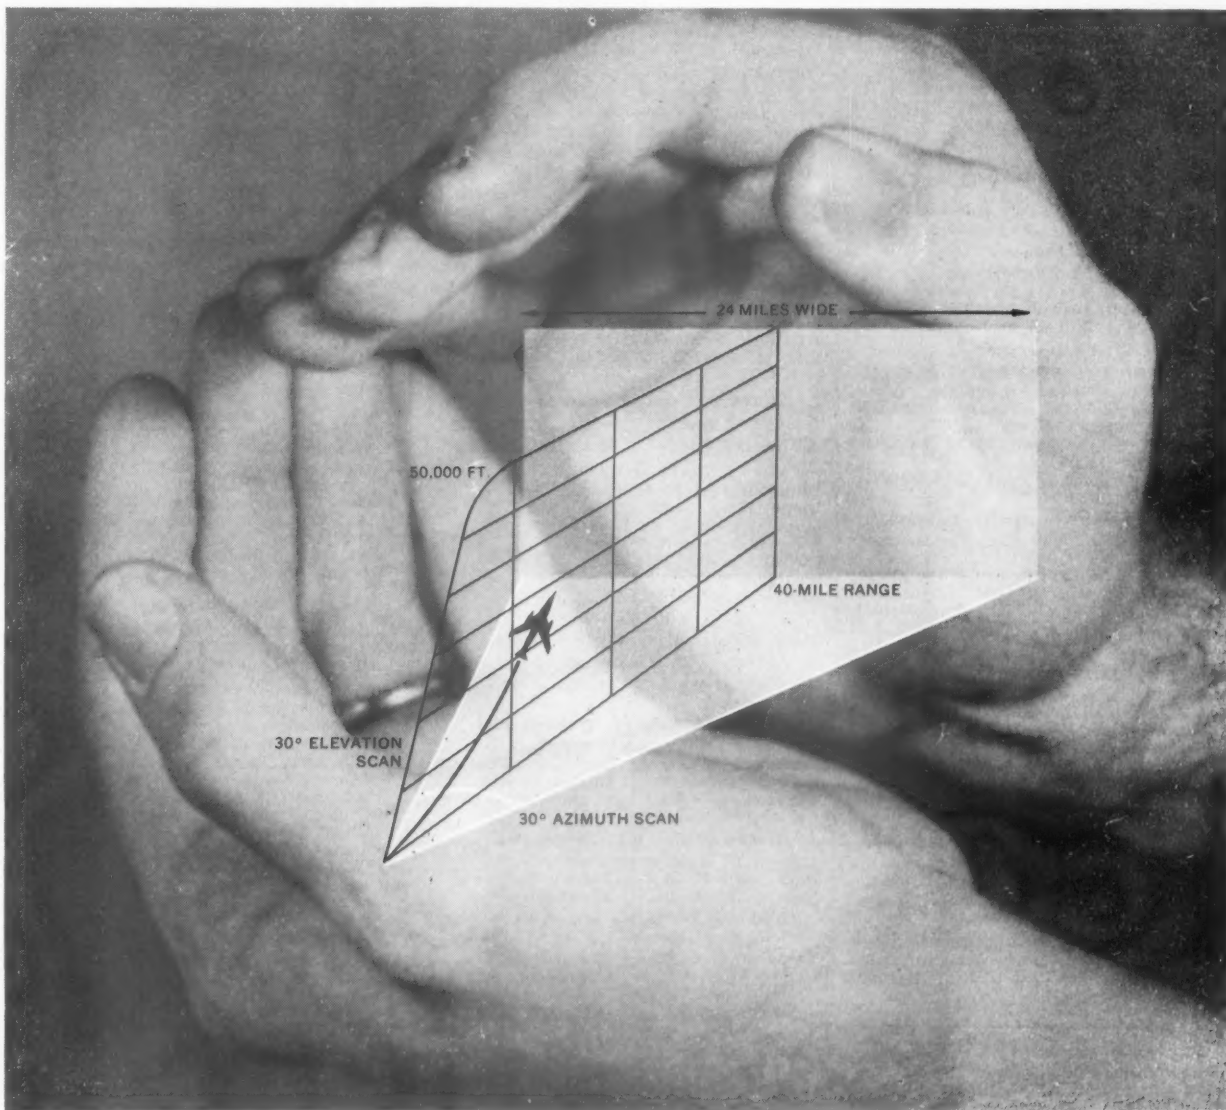

Army Navy Air Force Journal 13
 14 Feb. 1959 (Vol. 96, P. 717)

Lt. Col. Buckles At Ft. Sam

Lt. Col. Roscoe C. Buckles has been assigned to the Fourth Army G-3 Plans and Operations Division at Ft. Sam Houston, Tex. He arrived there from Ft. Monroe, Va., where he was with the CONARC Combat Operations Research Group.

Maj Holliday To Far East

Maj. Sam C. Holliday, Commandant of the Ft. Carson, Colo., Noncommissioned Officers Academy since July 1958, has been reassigned to the Far East.

Gilfillan Quadradar first proven navigational aid for the safe handling of supersonic jet aircraft!

Versatility and reliability of the Gilfillan Quadradar has been proven for over two years in more than 150 installations around the world! Gilfillan Quadradar has a three-dimension approach and departure coverage 40 miles long, a 24-mile wide "gate" and altitude coverage of 50,000 feet to permit a straight-in jet penetration and safe high-angle climb-outs.

Quadradar's 360-degree surveillance and height-finder system permits rapid, tight three-dimension control of traffic patterns within an area of 5,000 square miles. Pilots can be informed of position of all other aircraft within the terminal area, reducing collision hazards. Using its jet penetration function in reverse, Quadradar provides safe control during Mach plus high-angle climb-out, even in high-density traffic. The versatility and terminal area safety features during penetration and

high-angle, high-speed climb-outs of jet aircraft have been established by the U.S. Navy, the U.S. Air Force and by Lockheed, Douglas, Convair, North American and Hughes Aircraft Companies in actual operation at Moffett NAS, Castle AFB, and at Palmdale Flight Test Center.

Quadradar's unique versatility is providing air traffic controllers with accurate, safe altitude separation, monitored TACAN approaches, thunderstorm avoidance, and multiple runway coverage. It is also used as a toss-bomb trainer.

Gilfillan's manufacturing experience since 1912 and creative capabilities in the fields of Air Navigation, Radar Trainers and Ground Support Equipment, Electronic Countermeasures, Missile Systems and Instrumentation, are available for complete research, development and production in these and related fields.

B/G Meyer Tells 50th Army Flying Class Of Need To "Replace," Not "Add On"

A strong appeal for accelerated action to improve Army aviation was made to the 50th class of future Army aviators at the Camp Gary, Tex., Primary Flying School, by Brig. Gen. Richard D. Meyer.

Deputy Chief of Transportation for Aviation, General Meyer said:

"Up till now, we have grafted aviation onto the Army like a vermiform appendix. What we must do now is to integrate it.

"Do not think of 'adding on,'" he told the graduates. "What you must do is 'replace.'"

General Meyer made the point that 60% of Army aircraft won't take more than two people and spoke of the "tremendous cost of their replacement."

Introduced by Col. L. F. Schockner, Commander at Camp Gary, General Meyer assisted in presenting diplomas to 51 graduates, headed by Capt. Donald Nixon, honor man, and Col. George B. Bennett, class leader, who ranked second high in class average.

Other graduates were: Lt. Col. Ritchie Garrison and Captains Edward P. Davis,

Cecil H. Grimes, James W. Jarvis, jr. and Eugene P. Tanner.

First Lieutenants George W. Adamson, Alvin W. Cartwright, Don W. Chabot, Gary L. Clark, Clifford A. Crosman, Arlin Deel, Daniel J. DeLany, John F. Gore, Bert J. Haffner, Gleima O. Helmick, William E. Hodgson, jr., James L. Hollingsworth, Robert L. Jenkins, James A. McGowan, John S. McLeod, Carl G. Midgett, Vernon G. Munson, John F. Santulli, John R. Smith, Robin G. Speiser, jr., John P. Stewart, Robert L. Swanson, Robert F. Wetherbie.

Second Lieutenants Douglas R. Babcock, Clarence O. Bakken, Donnell G. Bauer, Jerry D. Bourassa, Donald R. Bryant, Tor A. Brunvand, John T. Cassetty, Troy D. Cooper, Arthur Crosman, jr., Norman L. Fausett, Charles G. Gore, jr., Billy D. Imboden, Theodore W. Johnson, Frederick J. Keller, Waylon A. Lyons, William F. McDonald, Joseph J. O'Neill, Leonard G. Smith, Walter E. Stephens, Bobby S. Wallace and Robert L. Webster, jr.

Army Missile Men Study Marksmanship

Command-wide and international competition rifle and pistol matches were discussed during a recent two-day conference of Marksmanship Project Officers at U. S. Army Air Defense Command Headquarters in Colorado Springs.

Lt. Gen. Charles E. Hart, Commanding General, welcomed conferees by stating that the meeting was the kick-off for the Advanced Marksmanship Program for the U. S. Army Air Defense Command. He went on to say the program has a dual purpose—first, a sport which in itself trains and develops new and better marksmen with the basic combat

weapons, and second, a vehicle which promotes higher competitive morale and esprit de corps within the command.

Overall discussion of the Marksmanship Program was conducted by guest speakers, Lt. Col. Sidney C. Carpenter, CONARC Marksmanship Officer for the Ft. Monroe, Va., and Maj. Thomas H. Netherton, O-in-C of the Fifth Army Advanced Marksmanship Team, Ft. Riley.

Also addressing the group was Mr. John Schooley of Denver, a lifetime member of the National Rifle Association and President of the Colorado State Rifle and Pistol Association.

How telephone research "saves 77 years"

When the boy Galileo first observed the regular motion of a cathedral lamp set swinging by the wind, he had no thought of inventing the pendulum clock.

It wasn't until 77 years later that Huygens picked up Galileo's notes and applied the pendulum principle (no matter how far the pendulum swings, its movement consumes the same time) to an actual working clock.

The creative thinker today still does not always have a specific use in mind when, by equation or formula, he branches off from the accepted or ordinarily observed to the hitherto unknown. The classic invention of this decade, the transistor, evolved in the Bell Telephone Laboratories as scientists sought a deeper understanding of semiconductors. On the other hand, another great invention, the feedback amplifier, came from the acutely creative mind of one Bell engineer faced with a specific problem.

Current Bell Telephone Laboratories activities—in such areas as data transmission, radar and submarine cable development—call for the coordinated efforts of all types of thinkers and all types of approaches. One type complements another.

Today, 77 years would not have elapsed between the swinging lamp and the swinging clock pendulum—certainly not at Bell Laboratories, where ideas, though not rushed, are carefully advanced toward fruitful application in national defense, industry and communications. An important part of this harvest is the efficiency of America's telephone service, unequalled anywhere else in the world.

BELL TELEPHONE SYSTEM

Nike-Zeus Barrage Hits Congress; Army Statements Conflict With Sec'y McElroy

From first page—

Neil, appearing before a third group, the Joint Congressional Economic Committee, emphasized that the "best scientific brains in the country" advised against rushing into Zeus production. Mr. McNeil made a strong point in stating that no project is being pushed harder than Zeus.

The Congressional testimony brought from General Dick the disclosure that a "milestone" was reached last August when a full-scale Zeus test engine was successfully static-tested at a measured thrust of 450,000 pounds. He said this thrust "is sufficient to launch the missile at a speed high enough to insure intercept of the incoming enemy nose cone."

He said development of Zeus has progressed to the point where several test models are being fabricated to demonstrate the system against several types of targets, "including actual ballistic missiles."

Here are excerpts from the testimony given by General Dick and General Beach before the Science and Astronautics Committee, whose Chairman is Representative Overton Brooks (D-La.):

Chairman Brooks — We are placing, then, our full reliance for intercepting missiles on the Nike-Zeus, and you state that we are pretty well financed on that program?

General Beach—As far as research and development is concerned it is proceeding as rapidly as it can.

Chairman Brooks—Is there anything that we can do, since we have placed such heavy reliance on the Zeus, to help speed the development of that program?

General Beach—Yes, sir, there is one thing. You could start establishing a production base for it now. It is a question of taking a slight risk, perhaps. . . .

Chairman Brooks — Well, that would mean, then, the beginning of the plans for the release of contracts for the construction of Nike-Zeus?

General Beach—Of the actual site, no, sir.

Chairman Brooks—The building of the missile itself?

General Beach—Construction of facilities in which you would build the various components of the missile, yes.

General Beach — The decision was made, as Secretary McElroy has testified, that based on the advice of top scientists that we weren't far enough along in the research and development area to warrant going into production, and that is the status now. The decision was made above my level, and probably for very good reasons.

Chairman Brooks—So this committee could recommend that we push that program of planning production for the

Zeus, is that correct?

General Beach—The committee could recommend anything it chose, I am sure.

Chairman Brooks—But I am asking you for a suggestion there, and you suggest that is the way we could help?

General Beach—From my level, will recommend going ahead with production. We thought that the threat was so urgent that it was warranted. The decision was made not to do so, and I am loyally abiding by the decision.

Chairman Brooks — Well, now, from your viewpoint, from your level, is that program being delayed?

General Beach—Well, as I said, there is a certain fixed lead-time from the time you start production until you have the first operational unit. That is fixed. The longer you wait to start your production, the further off that operational date becomes.

Chairman Brooks—So we have been dragging a little bit, and it is time then to start, is that your statement?

General Beach—That was our recommendation, but that is not the position of the advisors and the Secretary of Defense.

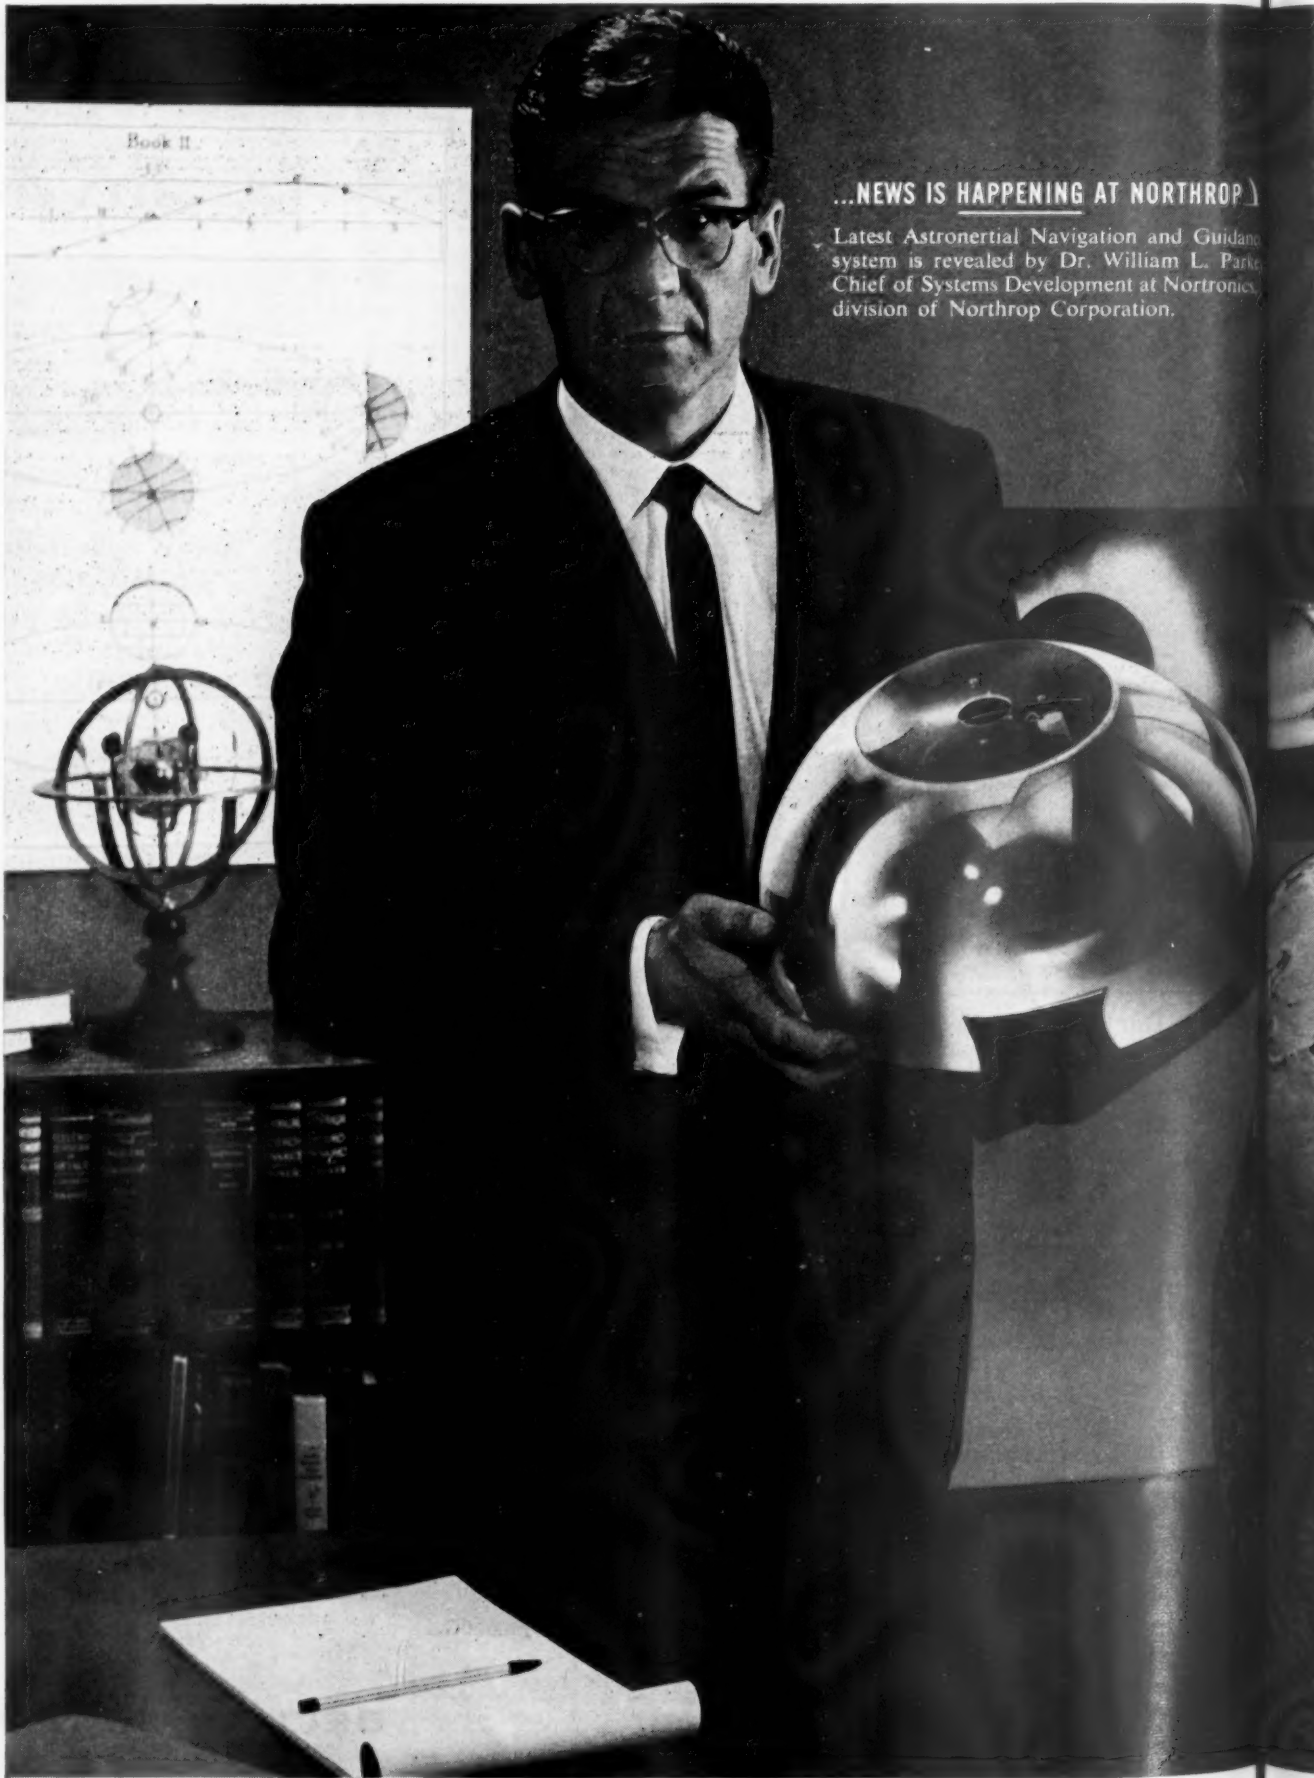

Chairman Brooks—I want your recom-

mendations, General.

General Beach—Well, my recommendation is the same as it always has been, to start early production facilities so we get a capability.

Representative John McCormack (D. Mass.), asked the two officers "How much money do you need to start production on the Nike-Zeus system?"

General Dick replied, "If a decision was made that production would proceed as soon as possible, we would require about \$30 million in this fiscal year. We would require an additional \$750 million in fiscal '60."

...NEWS IS HAPPENING AT NORTHROP

Latest Astronertial Navigation and Guidance system is revealed by Dr. William L. Park, Chief of Systems Development at Northrop, division of Northrop Corporation.

ARMOSPACE VS. AEROSPACE

House Majority Leader, John McCormack of Massachusetts and Maj. Gen. Dwight E. Beach of the Army agree that the term "aerospace" should not be exclusive, as revealed in the following colloquy which took place during hearings of the House Committee on Science and Astronautics.

Rep. McCormack — We have heard witnesses of another service use the term "aerospace." What Service do you think should have responsibility for military space activity?

Gen. Beach—Well, I never heard of that term before. I only heard of "armospace."

Rep. McCormack—Well, we encountered it the other day; a very sweet term, a very all-embracing term. As I said to somebody in the Army, whoever coined it ought to be made a full general. But my question is what Service should have overall responsibility for military space activities.

Gen. Beach — Congressman McCormack, I don't believe any Service should have overall responsibility. It should be a national effort.

"Hump" Plan Revamped; Navy Drops Proposal For Retired Pay Bonus; Hearings Set

From first page—initially during the four years of WW II. This group is disproportionate to all other year groups ahead and behind it, and constitutes about one-fourth of the Regular officer strength in the Navy and Marine Corps.

Officers in the Hump are in the grades of lieutenant commander/major and commander/lieutenant colonel.

Sending the bill to Congress, the Navy said: "Unless remedial action is taken, about two-thirds of these officers will be retired in the grades in which they are now serving without having had a rea-

sonable opportunity for promotion to a higher grade."

Need For More Vacancies

Ahead of the officers in the hump, and blocking their promotion, are the officers initially commissioned before WWII. In the Navy, these pre-war year groups comprise all the captains and the senior commanders, varying in length of service from 17 to 30 years.

Under present law, commanders and lieutenant colonels who have twice failed of selection for promotion may not be involuntarily retired until they com-

plete 26 years' service, and twice-failed captains and colonels may not be involuntarily retired until they complete 30 years' service.

Involuntary retirement of officers in the pre-WWII groups would, under present law, be spread thinly over a 13-year period, the Navy said, and would not produce sufficient vacancies each year to permit the timely promotion of officers in the disproportionately large "hump" year-groups whose length of service varies by a maximum of four years.

If promotions are slowed down to fill

only the vacancies created by operation of present law, the result will be stagnation in their present grades for officers in the "hump." This would be "extremely inefficient," the Navy has advised Congress, and would also have a "devastating effect" on morale, and would be a deterrent to young men contemplating Naval careers.

On the other hand, the Navy said, if promotions are not drastically retarded, two-thirds or more of the officers in the "hump" must be failed of selection for promotion unless a means is provided of creating more vacancies for them in the higher grades.

Share And Share Alike

The Navy believes "needed additional vacancies in the higher grades could best be created through the retirement, on a selective basis, of some of the senior officers in those grades a few years earlier than they could be involuntarily retired under present law."

The new "hump" proposal provides such authority.

In justification of this move, the Navy noted that senior officers in the pre-war year groups have attained their grades, in most cases, considerably earlier than contemplated under the Officer Personnel Act "and have had to face only light forced attrition rates."

The Navy said "It would not be unfair, therefore, to require the officers ahead of the hump to share with the officers in and behind the hump the attrition that is necessary to provide an orderly flow of promotions."

The "hump" proposals provide two methods of forcing the early retirement of captains and colonels.

First, the Secretary of the Navy would be authorized, when the needs of the Service require, to convene selection boards to consider for continuation on the active list captains and colonels who will complete at least five years' service in their respective grades by the end of the fiscal year in which the board is convened. Those not recommended for continuation would be retired at the end of the fiscal year in which the report of the board is approved.

Second, the proposal provides that captains (except doctors, dentists, medical specialists and restricted line officers) and colonels who twice fail of selection for promotion to flag or general officer rank shall be considered by a selection board for continuation on the active list. Those not recommended for continuation would be retired at the end of the fiscal year in which the report of the board is approved.

The Navy said the second method would not result in the early retirement of captains "at the present time" because it is the current policy to bring captains into the promotion zone for flag rank in their 29th year, and those who fail of selection in their 29th and 30th years are

NORTRONICS SYSTEM CAN GUIDE MAN TO PLANETS!

NORTRONICS ASTRONERTIAL: THE ONE GUIDANCE CONCEPT READY NOW FOR THE DAY MAN FIRST EXPLORES THE PLANETS!

Astronertial Navigation and Guidance has been under continuous refinement since 1946.

The only operational guidance concept capable of interplanetary navigation, it is applicable today to missiles, manned aircraft, surface ships and submarines. Astronertial typifies the years-ahead thinking of Northrop Corporation and all of its divisions. The Corporation's continuing goal: design concepts for tomorrow, hardware for today—in a balanced flow—developed and delivered on time, and at minimum cost.

NORTHROP CORPORATION

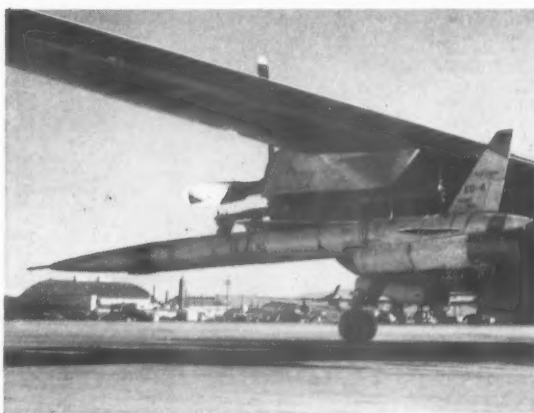

formerly Northrop Aircraft, Inc.

Beverly Hills, California

Now in production, the USAF T-38, America's first supersonic trainer, combines Century-Series performance with unique economy, ease of maintainability.

Demanding test for advanced U.S. weapon systems is the XQ-4 supersonic target drone, soon to be followed by the even faster and more sophisticated XQ-4A.

The N-156F counterair fighter is designed to provide friendly free nations effective tactical defense—at little more than half the cost of comparable fighters.

Two Lt. Colonels Join Dayton Management Unit

Lt. Col. Andrew Mainor has been assigned to Dayton AFD, Ohio.

Col. A. A. Denton, Commander said he will be Chief of the Systems Components Division of DAFD's new Logistic Support Management Directorate.

Colonel Mainor comes to DAFD from London.

Colonel Mainor lives with his wife, the former Dolores Picard, and their daughter, Andrea, at 4982 Bayside Dr., Dayton.

Lt. Col. W. P. Kenna has been named to head the Systems Management and Evaluation Division of Dayton Depot's Logistic Support Management Directorate.

Before coming to DAFD, Colonel Kenna was Professor of Air Science at Catholic University in Washington, D. C.

Colonel Kenna and his wife, Maxine, live with their three children, Eileen, 19, a junior at the University of Maryland, Patrick, 14 and Timothy, 9, at 4236 Shroyer Rd., Kettering, Ohio.

Fighting Forces Suffer Acute Lack Of Medical Specialists; AF Has Most Serious Shortage; Surgeons Are Scarce

Armed Forces medical activities are handicapped by a shortage of 1515 qualified specialists, covering every major field of patient care.

The Armed Services report a requirement for 4215 board-certified or board-qualified physicians.

There are only 2500 on active duty.

The Air Force has the most severe shortage of specialists. Against a requirement for 1304 specialists, the Air Force has only 387 on duty.

The Army has filled 1215 of its 1650 medical billets for specialists.

The Navy says it has 898 specialists,

compared with a requirement of 1261.

Surgery is one of the most understaffed medical specialties in all Services. There is a need for 660 additional doctors in all surgical fields to fill the Pentagon's requirement for 1641 board-certified or qualified surgeons.

Shortages of specialists in medicine are less severe, although in the allergy field the Services do not even have the first of their required 21 specialists. In all medical fields, the Armed Forces will need an additional 383 specialists to bring them up to their required quota of 1192.

Pentagon officials forecast a gradual rise of board-qualified or certified physi-

cians in all Services until most specialized medical needs are filled at the end of Fiscal Year 1963.

Even at that time, Pentagon officials say, there will still be some shortages in all fields of medicine and many surgical and other specialties.

At the end of Fiscal Year 1963, the Services expect to have a total of 4624 specialized doctors on active duty and to have filled most requirements for Army and Navy specialists.

The Air Force, however, will still be short almost 300 specialists in 17 out of its 24 major medical fields.

Here Are Service Medical Needs Through FY 1963

THE following table illustrates the shortages which confront the Medical Service in board-certified or qualified medical specialists in all fields through Fiscal Year 1963. Requirements for numbers of each specialty remain constant throughout the period. The two right hand columns show the number of specialists which the Services expect to have on active duty at the end of Fiscal Year 1959 and Fiscal Year 1963, respectively.

RAdm. Hogan Will Head Navy Medicine Two More Years

RADM. Bartholomew W. Hogan, first named Surgeon General of the Navy and Chief of the Bureau of Medicine and Surgery for a four-year tour on 15 February 1955, has been confirmed by the Senate to serve in this top medical post for another two years.

President Eisenhower has designated Admiral Hogan, 26th Chief of the Bureau of Medicine and Surgery and the 22d to hold the title of Surgeon General, to serve in that capacity through 15 February 1961.

Admiral Hogan, who was 58 on 29 January, joined the Navy as a lieutenant (jg) on 6 June 1925, and has been a rear admiral since 1 April 1952. He was aboard the carrier Wasp when she was torpedoed by a Japanese submarine 15 September 1942, and won the Silver Star Medal and Navy and Marine Corps Medal for his heroism in this action.

Admiral and Mrs. Hogan, the former Grace Gioninger of Pittsburgh, Pa., have three children, Bartholomew T. Hogan, Thomas F. Hogan, III, and Mary L. Hogan.

RAdm. Hogan

Top-Rank Promotions Slim In All Services

From first page—

retirements for thousands of senior Naval officers.

Hearings on the "hump" legislation begin 16 February before the House Armed Services Committee.

Unlike the Army and Air Force, which are not planning the forced attrition of senior medical and dental officers, the Navy finds itself with 619 Medical Corps captains and 449 captains in the Dental Corps, according to latest available information.

By comparison, the Army has 283 Medical Corps colonels and 88 colonels in its Dental Corps.

The Air Force has only 211 Medical Corps colonels and 63 Dental Corps colonels.

One compelling factor forcing the Navy to consider the early retirement plan for physicians and dentists has been its inability to promote many deserving commanders to captain. In its latest selections, the Navy was able to promote only 46.1% of its eligible medical commanders to captain. Only 44.6% of the eligible Dental Corps commanders could be given four stripes.

A similar promotion situation to the grades of lieutenant colonel and colonel is facing the Army, which has its own Medical and Dental Corps "hump" in the

grade of lieutenant colonel.

There are approximately 772 Medical and Dental Corps lieutenant colonels in the Army, compared with a total of 723 for the Navy and Air Force combined.

As a result, the Army has been able to promote only about 41% of its eligible Medical and Dental lieutenant colonels to colonel. Army officials foresee an even further tightening of the percentage of eligible lieutenant colonels who can be given eagles.

The Air Force, which has the least number of senior medical and dental officers of all the Services, promoted 24 medical officers to colonel out of 69 eligible during its last selection. In the last selection of Dental Corps colonels, the Air Force chose two out of a field of 116 eligibles.

Despite serious promotion bottlenecks resulting from Service "hump" problems, strong opposition to any plan that would force the early retirement of military medical and dental officers can be expected from the office of Dr. Frank B. Berry, Assistant Secretary of Defense (Health and Medical).

Strong opposition can also be expected from Congress, which only recently heard Dr. Berry testify that the Armed Forces need the doctor draft law in order to keep their medical activities up to strength.

Medical Service Rank Distribution In Service

The following table shows the strength and distribution of ranks in the Medical, Dental and Veterinary Corps of the Armed Forces, according to latest statistics available from the Department of Defense.

Omitted from this table are the lieutenants and lieutenants (jg), of which the Navy had one MC officer—the only one in that rank. In the Dental Corps, the Defense Department reports a total of 825 first lieutenants or lieutenants (jg), 209 in the Army, 197 in the Navy, and 419 in the Air Force.

In the Veterinary Corps, there are 307 in O-2 rank, of whom 141 are in the Army and 166 in the Air Force.

MEDICAL CORPS

	Total	RAdm. Maj. Gen.	Brig. Gen.	Navy Capt. Colonel	Cdr. Lt. Col.	LCdr. Major	Lt. Sr. Grade Captain

Col. Lewis H. Oden, jr., Commander of the Turner AFB, Ga., hospital was flown at a peak speed of 800 miles per hour by Capt. J. Frank Street, Operations Officer for the 309th Tactical Fighter Squadron, during a recent 40 minute flight in an F-100F trainer.

Lt. Col. Walter F. Gfeller, USAF (MSC), has arrived at Westover AFB, Mass., to be 4050th USAF Hospital Executive Officer. He replaces Lt. Col. James W. Perry, reassigned to Nouasseur, Africa. Colonel Gfeller arrived from Fairchild AFB, Wash., where he served in the same capacity. He is married to the former Marion Cone of Toledo. They have a daughter, Kathleen, 22.

A two-week course in Medical Military Training begins 9 March at the Naval

Army Navy Air Force Journal 19
14 Feb. 1959 (Vol. 96, P. 723)

Medical School, National Naval Medical Center, Bethesda, Md.

Naval Reserve Medical Department Officer personnel from the First, Third, Fourth, Fifth, Sixth, Eighth, and Ninth Naval Districts may attend on a limited quota basis. No security clearance is required.

Lt. Col. Wilson E. White, MSC, has been appointed Assistant Chief of the Program Coordination Section in the Office of the Army Surgeon General, Washington, D. C.

A 90-bed hospital will be built at Ft. Lee, Va. Cost will be \$2.9 million.

A nickel buys the same newspaper

...in a padlocked slot, or a small boy's hand... but you like that personal presentation of the paper. You like and need personal service on insurance, too... the way GPM plans to fit your particular needs. That's why we have agents and branches across the country. That's why GPM agents are former military people, trained as specialists in military insurance. That's why more than 55,000 military men depend on GPM's personally planned protection... and GPM's quarter-century of world-wide experience in the service of its policyholders.

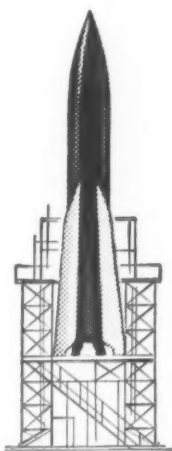

GPM now serves more than 55,000 policyholders with over 180 million dollars of insurance in force. This year, more than \$270,000 will be paid out in dividends to policyholders. During our nearly quarter century of service we have paid to policyholders and beneficiaries almost 7 million dollars. Recommended by Best and all other recognized rating authorities.

Currently we have unusual sales opportunities available in Maine and the Pacific Northwest.

how to get YOUR INVESTMENT PROGRAM off the ground

The sooner you set up an investment program, the sooner you can begin using your surplus cash to earn more money now or to supplement your retirement income.

As a start, you can read the valuable booklet, "How to Invest," now offered free to servicemen and women by Harris, Upham & Co.'s Armed Forces Department. This booklet explains the various types of securities in detail and gives fundamental rules for successful investing. A complete outline of investment principles shows you how to develop an investment program, based on your own individual needs, resources and objectives.

To get your copy of this helpful booklet, mail the coupon today.

Distaff Foundation Support Grows

Army wives clubs through the world have contributed over \$9,000 to the Army Distaff Club Foundation since the first of the year, Mrs. Maxwell D. Taylor announced to a meeting of the Army Wives Council at Ft. Myer, Va., 11 February.

The Foundation plans construction of a residence in the Capital for widows, daughters, sisters and mothers-in-law of deceased Regular Army and Reserve officers with 20 years service.

Typical of the plans being made to aid the Foundation is the benefit bridge and canasta party to be held 4 March at Frankfurt, Germany. Mrs. Joseph Stilwell, Jr., (left) the wife of Brigadier General Stilwell, V Corps CoFS; and Mrs. F. R. Blankenship, wife of Colonel Blankenship, V Corps Quartermaster, are shown at right discussing plans for the Distaff Club Foundation.

Mrs. Dwight D. Eisenhower is Honorary Chairman of the Foundation's Advisory Committee. Mrs. Maxwell D. Taylor is Honorary President of the Foundation.

A Senior JANGO luncheon will be held at Patton Hall, Ft. Myer, 17 February at

... Frankfurt Wives Aid D.C. Club

12:15 p.m., when Mrs. Nathan F. Twining will be the honor guest. The timely program, a harbinger of Spring, will be a demonstration of Japanese flower arrangements by Mrs. Frank A. Allen, Jr., wife of Major General Allen, USA-Ret., who founded the international organization for those interested in the Japanese art of flower arrangements, Ikebana International, of which she is President.

Mrs. Nixon Will Be QM Women's Club Guest; Service Club Calendar Lists Busy Programs

The Quartermaster Women's Club will meet for luncheon 19 February at the Ft. Myer Officers' Club at 12:30, when Mrs. Richard M. Nixon will be the guest of honor.

An added attraction will be a hat show presented by a local shop. Hostesses will be the Office of the Deputy Chief of Staff for Logistics Quartermaster wives.

Reservations must be made by Monday, 16 February. The price per person will be \$2.00; checks may be made payable to the Quartermaster Women's Club and sent to Mrs. John A. Coulter, 232 Orchard Dr., Fairfax, Va.

Paris—Installation of new officers highlighted the recent meeting of the Seine Area Officers' Wives Club at Camp des Loges. After accepting the gavel denoting club leadership from Mrs. Joseph E. Cooper, outgoing president, Mrs. William F. Magill, President, announced the names of the chairmen of the various club committees.

Other elected officers and chairmen of the various committees are Mesdames James W. Price, Vice President; Pen-nock H. Wollaston, Secretary; Inman E. Mallard, Treasurer; Welfare Committee Co-Chairmen—Leon B. Gordin and Robert B. Jaccard; Publicity Chairman—Arthur L. Falkenstrom; Entertainment Committee Co-Chairmen—William G. Stotlar and Frank Miner; Ways and Means Committee Chairman—Leo G. Robbins; Hospitality Committee Co-Chairmen—Joseph E. Cooper and Earle A. Paxson; Luncheon Committee Chairman—Charles E. McArdle; Membership Committee Chairman—Harry L. Yanoff.

Murnau, Germany—The Officers' Wives Club at the Army Engineer-Ordnance School has elected Mesdames R. L. Toole, President; R. B. Braid, Honorary President; A. A. Frick, Vice-President; H. B. Pillsbury, Honorary Vice-President; W. W. Bridges, Treasurer; and G. D. Moorhead, Secretary.

"Breath of Spring" will be the theme of the Fashion Show sponsored by the Ladies' Group of Raritan Arsenal, N. J., 4 March at 8 P.M. in the Officers' Club.

Mrs. Robert Lake is General Chairman, assisted by Mrs. Ernest Cuttillo, Decorations; Mrs. Morgan E. Tackett, Ticket Sales; and Mrs. John Tinsley, Models. Mrs. Paul McLard and Mrs. H. M. Strassburger are in charge of Publicity, with Mr. Mike Kocik, Information Officer of Raritan Arsenal, as technical advisor.

Serving on the decorations committee are Mesdames Dominic P. Cerminaro, George Kalteissen, David Murphy, Ken-

neth O'Brien, Walter V. Olehnik, Leo B. Shupp and Erwin Walinski.

Assisting Mrs. Tackett are Mesdames Angelo Karvelas, Richard McDonald, Robert Monaghan, and Joseph Wyman.

Models for the show will include Mesdames Seymour Cohen, William E. Haasz, Henry Jensen, Billy D. O'Connor, Roberta Pleshko, Joseph Soporowski, and John R. Walters.

Lt. Col. Donald H. Greeley will serve as master of ceremonies, Mrs. Melvin Singer will be the Commentator. Background music will be furnished by Mrs. Louis J. Faigl. Mr. Anton Skell will serve as photographer.

Officers of the Raritan Arsenal Ladies' Group are: Mesdames James D. Peterson, Honorary President; Charles W. Fauroat, President; Charles E. Collins, Jr., Vice-President; Charles F. Gamble, Secretary and Morgan E. Tackett, Treasurer.

Biggs AFB, Tex.—The Officers' Wives' Club has selected a new slate of officers. They are President, Mrs. William L. Brackley (second term); Mrs. C. W. Slaughter, First Vice President; Mrs. E. G. Siebold, Second Vice President; Mrs. A. R. Ellison, Treasurer; Mrs. C. F. Horky, Secretary; Mrs. Willard Burghoff, Corresponding Secretary; and Mrs. S. C. Johnson, Assistant Treasurer.

SIGNAL AGENCY GRAY LADIES—Launching the 1959 American Red Cross Blood Program at the Army Signal Supply Agency, Philadelphia, are Army Officers' wives who serve as Gray Ladies during Bloodmobile visits. Seated, left to right, are Mesdames George P. Sunshine, Elmer L. Littell, Ernest E. Lehman, and James W. Lash. Standing, left to right, are Mesdames Margaret Bisbee, Thomas S. Gargas, Charles E. Goodale, Douglas O. Toff, John S. Doyle, James L. Riggins, and John C. Woodburn

Retiring AF Couple Greeted At Wheeler; Notes On Folk In All The Services

General and Mrs. E. W. Rawlings, who will leave the Air Force at the end of the month when he retires after widely acclaimed service as head of the Air Materiel Command, were guests of honor at a recent reception held by Brig. Gen. and Mrs. Harry C. Porter, Commander, Air Materiel Force, Pacific, at Wheeler AFB, T. H.

While General Rawlings was on an inspection trip in the Pacific and Far East areas, Mrs. Rawlings, member of a "kamaaina" Island family, visited her family and friends in Honolulu.

General and Mrs. Rawlings, shown at right, were joined in receiving the guests at the Wheeler reception by General and Mrs. Porter and Brig. Gen. Joseph T. Kingsley, AMC Chief of Staff.

Among the many distinguished guests were the Assistant Secretary of Defense E. Perkins McGuire and Mrs. McGuire; General and Mrs. Laurence S. Kuter, Commander, Pacific Air Forces; General and Mrs. I. D. White, Commander, U. S. Army Pacific; Lt. Gen. and Mrs. Vernon McGee, Commander, Fleet Marine Force Pacific; Maj. Gen. and Mrs. John B. Cary, Headquarters PAF; Maj. Gen. and Mrs. Matthew K. Deichmann, Headquarters PAF; Maj. Gen. and Mrs. Emery S. Wetzel, Headquarters PAF; Brig. Gen. and Mrs. Charles A. Piddock, Headquarters PAF; Brig. Gen. Paul L. Barton, Commander, Northern Air Materiel Area, Japan, and Staff; Col. Ralph C. Rockwood, Commander, Southern Air Materiel Area, Philippine Islands, and Staff; Col. J. B. Cross, Chief of Information Services, AMC; Col. J. C. Martin, Deputy Director of Plans and Programs, AMC; Lt. Col. C. C. Watts, AMC Surgeon.

Mrs. Caroline Peterson of Honolulu, mother of Mrs. Rawlings, was present with Mr. and Mrs. Edwin W. Peterson, and Mr. and Mrs. Robert H. Peterson, also of Honolulu.

Col. William G. Workman, USAF, former 6th District OSI Commander at Robins AFB, Ga., has retired after 30 years service. He was succeeded by Col. David B. White. Colonel and Mrs. Workman, the former Hazel Elizabeth Bird of Princeton, W. Va., plan to make their home in DeLand, Fla.

Two Ft. Carson, Colo., teenagers have been elected to membership in the National Honor Society at Fountain High School. John W. Brubaker, son of Col. Elbridge L. Brubaker, Carson logistics officer, was elected president of the society. Margaret Williams, daughter of CWO Cecil Williams, assistant logistics officer, 1st Battle Group, 39th Infantry, was also named to the society.

Col. Lewis A. Bonifay, G-3 of IV U. S. Army Corps (Res) in Birmingham, Ala., who retired 31 January following more than 32 years, and Mrs. Bonifay will make their home at 308 La Prado Circle in Birmingham.

... Retiring AF Couple

During the commissioning of ROTC cadets at the University of Kansas recently, Lt. Col. (USAF-Ret.) George D. Meserve administered the oath to his son, 2d Lt. George D. Meserve, Jr., who reports to Lackland AFB, Tex., 28 April for pre-flight training.

CWO and Mrs. Richard E. Gilmore, following retirement at the Marine Corps Recruit Depot, Parris Island, S. C., plan a trip to California to see their son, and then will head for Clearwater, Fla., to take up residence.

People Of Service

"Jimmie" Stephens, wife of M/Sgt. James E. Stephens of Walker AFB, N. M., 6th Field Maintenance Squadron, has been named Chairman of the Family Services Office Committee with Joyce Shank, wife of Capt. R. E. Shank of the 6th Air Base Group named as Co-Chairman.

Mrs. Stephens, mother of two girls, was named Volunteer of the Month for December at Walker because of "exceptional work" she performed during the last Family Services Orientation Course, which was in addition to her regular volunteer work.

Mrs. Shank, mother of three small girls and one smaller boy, is also a regular member of the Chapel Choir.

Maj. and Mrs. Harold J. Lewis, 5853 A Brett Drive, Ft. Knox, Ky., have financially "adopted" Maria Luisa Maisto, an 8½-year-old Italian girl, through Foster Parents' Plan, Inc., 352 Fourth Avenue, New York City. The Foster Parents have promised to contribute \$15 a month toward the child's support for at least one year.

Col. Kenneth F. Grunewald, Myrtle AFB, S. C., Commander, has presented letters of appreciation to Mrs. Gilbert E. Cummins and Mrs. Leslie M. Page for their work with the Family Services Program. Mrs. Cummins, Welcoming Committee chairman, and Mrs. Page, co-chairman, were named the two outstanding volunteer workers by the Family Services Council for their work since the Program started there last October.

Vicenza, Italy — New officers of the Vicenza Holy Name Society are: President, Lt. Col. Vincent A. Carlingola; Vice President, Capt. William H. Range; Secretary, Capt. Louis J. Molli; Treasurer, Sgt. James C. Galvin; and Marshal, Pfc Arthur E. Prochaska.

Service Weddings and Engagements

MISS Dorothea Williford Reeder, daughter of Col. (USA-Ret.) and Mrs. Russell P. Reeder, jr., of West Point, N. Y., became the bride of Lt. Dale Eugene Hruby, USA, in an afternoon ceremony at the Cadet Chapel, West Point, 7 February, with Chaplain George M. Bean, USMA, officiating, assisted by the Reverend Francis Larew, cousin of the bridegroom. Lieutenant Hruby is the son of

Photo by E. Bachrach
Mrs. Hruby

Mrs. Joe W. Hruby of Stockton, Calif., and the late Lieutenant Colonel Hruby, USA-Ret.

Miss Julia Reeder, younger sister of the bride, was maid of honor. Bridesmaids included her older sister, Mrs. Theodore S. Riggs, jr., Misses Emily Babb, Joan Stahlhut and Dianna Trischman. Lt. George Michael served as best man.

Mrs. Hruby, an alumna of St. Mary's School, Peekskill, N. Y., will graduate from Mary Washington College of the University of Virginia at Fredericksburg this June, after which she and her bridegroom will make their home in Germany, where he will be stationed with the Seventh Army.

STAIR-MORGAN—Maj. Gen. (USAF-Ret.) and Mrs. William M. Morgan of 201 Wiltshire, San Antonio, announce the marriage of their daughter, Michelle, to Mr. A. Taylor Stair, jr., 31 January at Christ Episcopal Church, San Antonio, in the presence of close friends and the immediate families.

Attending the bride were her cousin, Miss Ann Jeffers, as maid of honor, and as bridesmaids, Mrs. George His, Misses Molly Denman, another cousin, and Sue Ann Powell. Groomsmen included Messrs. Joe Wolfe, Curtiss Marshal, Don Ryan, John Brock and William Bates.

Mrs. Stair, a graduate of Pine Manor Junior College, attended Boston University. A member of the Boston Junior League, she made her debut in San Antonio, where she was a member of the Girls' Cotillion Club. Mr. Stair received a Ph.D. degree from the University of Oklahoma, where he was a member of the Delta Tau Delta fraternity and was elected to Phi Beta Kappa. He is now associated with the Air Force Research Center at Hanscom Field, Bedford, Mass., in the Geophysics Directorate.

Following a honeymoon at Santa Fe, N. Mex., and Aspen, Colo., the couple will be at home at 239 East St., Lexington, Mass., after 15 February.

DOWNING-FERTIG—Mr. and Mrs. Walter K. Fertig of Mt. Carmel, Pa., announce the engagement of their daughter, Margaret Ann, to 2d Lt. Edward J. Downing, jr., USA, son of Lt. Colonel and Mrs. Downing, now at St. Andre, France. Miss Fertig is a graduate of the Lankenau School of Nursing, Philadelphia. Her fiancé, USMA '58, is stationed at Ft. Benning, Ga.

SNYDER-SUMNER—Maj. and Mrs. Carl E. Williams of Colorado Springs, announce the engagement of her daughter, Miss Dolores Joan Sumner, to Mr. Donald U. Snyder of Dover, N. J.

The bride-to-be, daughter of the late Mr. Harry Sumner, and a graduate of the Berkeley Secretarial School, East Orange,

N. J., attended the Orange Memorial School of Nursing. She is employed in Dover by the Radio Corporation of America. Mr. Snyder, who served two years with the Army, is associated with the Suffern Tri-County Distributing Company, Wharton, N. J.

A Fall wedding is planned.

LITTLEJOHN-ROGERS—Miss Kathryn Walda Rogers, daughter of Lt. Col. (USA-Ret.) and Mrs. Walter R. Rogers of 311 No. West St., Falls Church, Va., and Mr. Norman Warrender Littlejohn, son of Mr. William Littlejohn of Arlington, Va., and the late Mrs. Mildred Littlejohn, were united in marriage by Chaplain Father Conor Smith in a double ring ceremony 31 January at the Post Chapel, Ft. Myer, Va.

Photo by R. Sakamoto
Mrs. Littlejohn

Colonel Rogers gave his daughter in marriage, Miss Maureen Kelly was her maid of honor and Misses Joanne Vinson and Susan Gloster were bridesmaids.

Mrs. Littlejohn and her husband are students at the University of Virginia, where she is completing nurses' training at the Nursing School, and he is majoring in Geology. Mr. Littlejohn is a member of the Chi Pi fraternity.

Upon their return from a Bermuda wedding trip, the couple will reside at Charlottesville until after graduation.

ROBERSON-WALKER—Mr. and Mrs. John H. Walker of Alexandria, Va., have announced the engagement of their daughter, Margaret, to Mr. William Dean Roberson, jr., son of Colonel (USMC) and Mrs. Roberson, sr., of Pensacola, Fla.

Miss Walker, who attended Iowa State College, is now a student at the Washington School for Secretaries. Her fiancé attends the University of Illinois.

A June wedding is planned.

SIMPSON-EASTON—Col. and Mrs. Harry D. Easton, jr., of Ft. Meade, Md., announce the engagement of their daughter, Judith Wagner, to Cadet Donald T. Simpson, USMA '59, son of Col. and Mrs. Walter A. Simpson of Carlisle Barracks, Pa.

Miss Easton, a senior Communications major at American University, Washington, D. C., attended Mary Washington College of the University of Virginia, the Norfolk Division of the College of William and Mary and Sofia University, Tokyo. She is a member of the Theta Sigma Phi honorary Journalism fraternity and the Women's Regulation Board.

A June wedding is planned.

JASCH-BRADFORD—Miss Marian Colmore Bradford and Mr. Verlin Jasch were married in an evening ceremony 4 February at St. Jane Frances de Chantal, Bethesda, Md., performed by Msgr. James E. Caulfield. The bride is the daughter of Mrs. Henry Colmore Bradford of 406 Brook Dr., Falls Church, Va., and the late Colonel Bradford, MC, USA, and the bridegroom is the son of Mr. and Mrs. William G. Jasch of Ft. Wayne, Ind.

Photo by Harris & Ewing
Mrs. Jasch

The bride was given in marriage by Brig. Gen. Thomas W. Mattingly, MC, USA, and had Miss Rosamond C. Anderson of Greenwich, Conn., a Goucher classmate, as her maid of honor and only attendant. Mr. Louis N. Conroy was best man and ushers were Col. Henry E. Strickland and Mr. Robert G. Strickland. Following a Jamaican wedding trip, the couple will reside in Washington, D. C.

Army Navy Air Force Journal 23
14 Feb. 1959 (Vol. 96, P. 727)

BONE-GREER—In an evening ceremony at St. James' Episcopal Church, Los Angeles, Calif., 7 February Miss Susanne Greer, daughter of Mr. and Mrs. S. Allan Greer of Los Angeles, and Lt. Aubra Nelson Bone, USA, son of Mrs. Albert W. Witzel of Pasadena, Calif., were married by the Reverend Ivol Curtis.

Photo by R. Huff
Mrs. Bone

The bride was given in marriage by her father, and was attended by Mrs. Daniel E. Carter of Winterhaven, Fla., as matron of honor. Her bridesmaids were Mesdames William Foster, Rodney Willcuts, A. P. Gates, William Farwell and Miss Joan Connolly. Best man for Lieutenant Bone was Mr. Whitney Wolfe, and ushering were Messrs. T. Mulligan, F. Nason, jr., J. Sine, jr., William Greer, brother of the bride, W. Farwell and Lt. D. Carter.

Following a honeymoon spent in London and Paris, the couple will make their home at Stuttgart, Germany.

BROWN-BEIDERMAN—Mr. and Mrs. L. F. Beiderman have announced the engagement of their daughter, Peggy, to Mr. James H. Brown, son of Lt. Col. and Mrs. Max H. Brown of Arlington, Va.

Miss Beiderman and her fiancé are students at Marquette University.

Phillips, recently of Monterey, Calif., and now en route to Ft. Hood, Tex., and Mr. Kenneth James Hardy. He is the son of Mr. and Mrs. Martin E. Hardy of Monterey.

Attended by Mrs. Marvin Reyburn as matron of honor, and Misses Mary Anne Bushore and Shirlene Young as bridesmaids, the bride was given in marriage by her father, who recently returned from Korea. Best man was Mr. George Yaminichi, and ushers were Messrs. M. Reyburn, T. Bizini, M. Hamilton and John Hollo, brother-in-law of the bridegroom.

Mrs. Hardy, whose brother, David, is a cadet at the USMA, attended Stephens College and the Monterey Peninsular College. Her bridegroom attended the Monterey Peninsular College before serving with the Army, and is now a student at the San Francisco State College.

Following a wedding trip, the couple will make their home at the Westlake Apartments, San Francisco.

MACINNES-HUNDLEY — Lt. Col. (USAFR) and Mrs. Robert Lyell Hundley of Port Henry, N. Y., have announced the engagement of their daughter, Preston Garnett, to Pvt. Ian Campbell MacInnes, son of Mrs. Koert DuBois Burnham of Keeseville, N. Y., and Cdr. John Nealon MacInnes, USNR, of Coronado, Calif.

Miss Hundley attended Brenau College in Georgia and Randolph-Macon Women's College, Lynchburg, Va. Her fiancé, an alumnus of St. Andrew's School in Delaware, attended Brown University. He is currently stationed at Camp Lejeune, N. C., with the Marine Corps.

An April wedding is planned.

More Notes On Service Clubs, People

The Army's Research and Development Wives' Club met 12 February at Ft. Myer, Va., to hear Mrs. W. C. W. Sloan, wife of Colonel Sloan of the British Joint Services Mission, speak on "Displaced Persons in Europe."

Hostesses were Mrs. Bryce F. Denno, Mrs. Jackson E. Shirley and Mrs. Lawrence R. Anderson.

Lt. G. S. Meloy, 3d, arrived last week at Ft. Sam Houston, Tex., with his family from Augsburg, Germany, to visit his father, Lt. Gen. G. S. Meloy, jr., Fourth Army Commander. Lieutenant Meloy has just completed an assignment with the 187th Infantry Regiment Combat Team. During this service he participated in the landing in Lebanon. He is en route to Ft. Benning, Ga., where he will attend the Advanced Infantry Officers Course. Before leaving for Georgia Lieutenant Meloy, his wife Harriet and their two children, G. S. Meloy 4th, and Sharon Elizabeth, visited in Abilene, Tex., with Col. (USA-Ret.) and Mrs. H. M. Grizzard, parents of Mrs. Meloy.

Col. Thomas O. Lawton, USAF, WRAMA Procurement and Production Director, Robins AFB, Ga., has been installed as Chairman of the Peach Belt District of the Central Georgia Council of the Boy Scouts of America.

In other Peach Belt appointments, **Maj. John O'Neal** of the 37th Communications Squadron, was named organization and extension Chairman; and **T/Sgt. Glenn K. Buckles**, of the WRAMA Information Services Office, is the new camping Chairman.

The DCS/LOG Officers' Wives' Club scheduled a formal dinner dance Saturday 14 February at 7 o'clock in the Crystal Room of the Naval Gun Factory Officers' Club.

Lt. Gen. and Mrs. Carter B. Magruder, Honorary President; Lt. Col. and Mrs. George W. Reitz, President, and Col. and Mrs. Henry K. Benson, Chairman of the Arrangements Committee, were to greet the guests.

Other members of the arrangements committee: Mesdames Wilfred J. Garvin, F. J. Chesarek, and Bernard Wobbeking.

Smith, Stuart H (SC), NAS MFTFLD; to BUSANDA.

Obituaries

Maj. Gen. William J. Donovan, USAR-Ret

A Requiem Mass was said at St. Matthew's Cathedral, Washington, D. C., 11 February for Maj. Gen. William J. Donovan, USAR-Ret, who died at Walter Reed Army Hospital 8 February at the age of 76, following a long illness. Burial was at Arlington National Cemetery.

Soldier, diplomat, politician, lawyer, General Donovan joined the New York National Guard in 1912 and saw service on the Mexican Border. In WWI, he commanded the "Fighting 69th" Infantry Regiment of the Rainbow Division, with which he won the Medal of Honor, the Distinguished Service Cross and the Distinguished Service Medal, the Nation's three highest decorations.

During WWII, General Donovan was named Director of the Office of Strategic Services and personally participated in many of its worldwide missions. He has since been credited with foreseeing the need for the establishment of a Central Intelligence Agency. From 1953 to 1955, he served as Ambassador to Thailand. In lieu of flowers, the family requested that contributions be made in General Donovan's memory to the International Rescue Committee, 225 4th Ave., New York City, of which he was Chairman. He is survived by his widow, Mrs. Ruth R. Donovan, Chapel Hill Farm, Berryville, Va.; one son, Mr. David Donovan, also of Berryville; one brother, the Reverend Vincent Donovan of the Dominican Order; one sister, Mrs. Loretta Henry, New Rochelle, N. Y.; and five grandchildren. His only daughter, Patricia, was killed in an automobile accident in 1940.

Maj. Gen. James B. Newman, jr., USAF-Ret.

Funeral services for Maj. Gen. James B. Newman, jr., USAF-Ret., were held 12 February at the Ft. Myer, Va., Chapel. General Newman died of a heart attack at Orlando, Fla., 7 February. He was 62 years old.

A native Alabamian, General Newman was a 1918 graduate of the USMA. As Military Assistant to the District Engineer, he supervised the design and construction of the Washington National Airport in 1939-40. During WWII, General Newman served with the Ninth Air Force in Europe and later was in charge of all ground construction for the American and French air units in the European theater, a command encompassing 273 airfields. Retired in 1945, two years later General Newman was recalled to active duty to help plan the Air Force Academy and in 1949 was promoted to major general. He had recently been a consulting engineer with the Aerojet Corporation.

Olsen, John K. WACHUSETT (Engr Trng to Engr Duty).

CWO-4

Adams, William O. CGD1 to EASTWIND.
Jester, Floyd J. Supply Depot, Miami (Designated CO).
Fitch, Frank, MIO, NY to MIO, Norleans (Duty).

New ARDC Offices Monitor Contracts

Lt. Gen. S. E. Anderson, ARDC Commander, has established new offices to monitor all ARDC contractor relations activities and four additional regional offices to provide closer liaison with industry and educational institutions engaged in research and development.

A new office, in operation at ARDC Headquarters, is known as the Assistant Deputy Commander for Technical and Contractor Services, under Col. Richard E. Sims.

Responsible to the ARDC Deputy Commander for Resources, Brig. Gen. Lee W. Fulton, this office will be joined by a new Directorate of Technical Services, headed by Col. Frank M. Fazio, and the Directorate of Procurement under Col. John Progers. These offices will become the

central point of contact in Headquarters ARDC for all active and prospective Air Force contractors.

Under the new organizational alignment, the Small Business Office will be elevated from the Directorate of Procurement and placed directly in the office of the Assistant Deputy Commander for Technical and Contractor Services.

Four new ARDC regional offices are being established in Boston, Washington, Denver, and Dallas to supplement existing offices in New York, Chicago, and Los Angeles. "These offices," Colonel Sims stated, "will administer contracts for ARDC, locate new contractors to expand further the research efforts of the command, and stimulate additional small business activities."

NAVY VET. MARTIN INFO. MGR.

Fred E. Hamlin, a public relations executive and former radio and television editor who served with the Navy in WWII, has been named Manager of Information Services for the Martin Company's Baltimore Division.

Mr. Hamlin's appointment was announced 10 February, two days before his forty-fifth birthday. Designated to succeed F. N. Nutt, Mr. Hamlin, who served on the staff of Fleet Admiral William F. Halsey and the staff of the Commander, Western Sea Frontier in WWII, has been serving as Manager of Special Activities for the Convair Divisions of General Dynamics in San Diego since 1949.

Prior to that, he was a television news editor and director of public relations for Paramount Television in Los Angeles, and radio and news editor for the State Department's "Voice of America" programs and Office of Inter-American Affairs.

Mr. and Mrs. Hamlin, the former Helen Loomis of Salt Lake City, have three children, Fred, Jr., Ruth, and Mrs. Jean Rothwill, and six grandchildren.

Mr. Hamlin

INDUSTRY IN DEFENSE

Chamber Endorses Bill To Speed Production

The U. S. Chamber of Commerce is seeking the overhaul of obsolete military procurement methods.

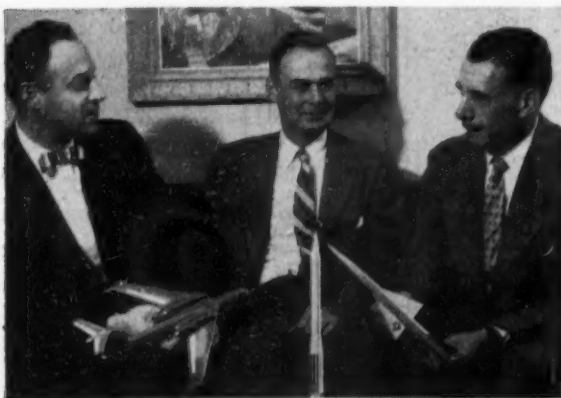

The Chamber declared that provisions in the 11-year-old Armed Services Procurement Act "prevent the military from taking full advantage of U. S. industrial know-how which has placed the nation far ahead of the rest of the world in production of commercial goods and services."

Specifically, the Chamber wants Congress to:

- Restrict the use of elaborate and detailed specifications in defense contracts.
- Require greater use of commercial products meeting military needs rather than develop new specifications. (One defense contract devoted 16-pages to ping pong ball specifications.)
- Encourage the use of incentive-type contracts which permit a contractor to retain a percentage of any savings he is able to make in production of a given item at a specified price.

The proposals are in agreement with those contained in the Saltonstall bill (S. 500) now before the Senate Armed Services Committee.

M/G Dent Heads Martin "Task Force"; Company Names Unit For Space Projects

... Herman Pusin, A. L. Varrieur, and Brig. Gen. Frederick R. Dent, Jr., USAF-Ret. — Reorganize for Space Age.

MAJ. Gen. Frederick R. Dent, Jr., USAF-Ret., has been named to head a Martin Company "Task Force" for Missiles and Electronics Engineering.

His appointment was announced as part of a move in which Martin-Baltimore reorganized its 2,000-man engineering staff into separate teams "to develop and deliver unsurpassed manned vehicles and missiles and electronic systems required for world leadership."

Instead of the previous single engineering division, there are now the Missiles-Electronics Task Force under General Dent and a Manned Vehicles Task Force under Herman Pusin, formerly Chief En-

gineer of the Baltimore Division.

Vice President and General Manager A. L. Varrieur said that several new categories of R&D activities will be raised to project status with a technical director within each of the two divisions. For General Dent's division, Mr. Varrieur listed such projects as Ground Support Equipment, Antisubmarine Warfare, Reconnaissance and Guidance, and Navigation.

A 1929 West Point graduate, General Dent is a former Chief of the Wright Air Development Center in Dayton. From 1953 to 1957 he commanded the Air Materiel Area in Mobile, Ala.

Chance Vought Delivers First F8U-2, Last Regulus I Missile To The Navy

Chance Vought has delivered to the Navy the first production model of the new high-performance F8U-2 Crusader fighter plane.

Coincidentally, the last Regulus I missile built by Chance Vought for the Navy—Number 514 in a line dating back to 1950—has been delivered from Dallas to a West Coast Navy base.

An advanced version of the 1000-miles-an-hour-plus F8U-1, the new Crusader flies at nearly twice the speed of sound, has a more powerful engine than its record-setting predecessor, and more advanced fire control and radar control.

Lt. J. J. Chambers of the Naval Air Test Center, Patuxent River, Md., came to Dallas to fly the new Crusader back to the East Coast for exhaustive flight testing. It will be assigned to the Navy Board of Inspection and Survey for these trials.

The F8U-2 is equipped with a Pratt & Whitney J-57-P16 engine, giving it improved performance over the F8U-1, which set the first Thompson Trophy national speed record in excess of 1,000 miles an hour and made the first supersonic transcontinental flight. The F8U-1 and F8U-1P photo version are also in production at the Vought plant in Dallas.

The delivery of the last Regulus I was the occasion for a report that the Navy has made 850 flights with the snub-nosed missile. Some attained as many as 18 flights before being destroyed. It has been fired from submarines, guided missile ships, cruisers, aircraft carriers and from land bases.

The 500-mile range Regulus I last year was fired from the submarine Tunny off the Philippines while officials of Southeast Asia Treaty Organization nations watched. It was launched from the Navy base at Pt. Mugu, Calif., while Queen Frederika of Greece looked on. Numerous launchings at east coast bases or ships from Virginia to Maine have been viewed by high government officials.

Reports were current this week that French officials have approached the Chance Vought firm with proposals to purchase production rights and tools for the advanced Regulus II missile which the Navy was forced to cancel for budgetary reasons. The French are said to want to purchase Regulus II missiles already built as well as to go into production themselves on the missile.

Holloman Reports "Impressive" Flight By Firebee; Other Weapon Developments

Holloman AFB, N. M., reports an impressive free flight of the Air Force XQ-2C Firebee, newest and most advanced version of the famed remote-controlled jet target drones manufactured by Ryan Aeronautical Company, San Diego, has launched an intensive testing program.

The Firebee, shown at right, soared to an altitude of 46,000 feet and was flown 26 minutes, until all fuel was expended, after which the "bird" entered a controlled glide of 4 minutes, 20 seconds from an altitude of 38,000 feet, descending to 25,000 feet, where parachute recovery was commanded by the remote controller on the ground.

The XQ-2C dropped to the desert floor only one-fourth of a mile from the center of a pre-determined recovery circle, and suffered such little damage that it could have been prepared for another flight within 24 hours.

Much of the fuel on this first extended free flight mission was utilized while the Firebee was still attached to its B-26 "mother plane." The XQ-2C engine was started at an altitude of 10,000 feet, and as the B-26 climbed to 16,000 feet, the Firebee served as an "augmenter" that gave the launching plane at least twice its normal rate of climb.

When the B-26 leveled off at launching altitude, the XQ-2C was released, and was put through a flight pattern of climbs and turns up to the 46,000 feet altitude.

A4D Skyhawk Speed Drives

A \$3 million order for hydraulic constant speed drives for the Douglas A4D Skyhawk has been awarded to General Electric Company's Aircraft Accessory Turbine Department.

The order represents an addition to contracts for this equipment held by General Electric since 1953 and reflects the Navy's recent decision to increase procurement of the high performance aircraft, according to Department General Manager Walter C. O'Connell.

"Snooper Drone" For Army

Successful test flights of a new, miniature flying "snooper" are reported by the Army. The aircraft, a remote controlled drone designated the SD-3, was built for the Signal Corps by the Republic Aviation Corporation at Mineola, L. I., New York. Designed to observe enemy battlefield activities, it was flown successfully at the Army's test center facility in Yuma, Arizona. Longest of the four flights lasted for more than 30 minutes.

Weighing less than half a ton and only 15 feet long with a wing span of 11 feet, the SD-3 is packed with electronics and advanced sensory devices for guidance control and observation of enemy troop movements, fortifications and battlefield installations.

Interchangeable nose units enable rapid switches from one surveillance technique such as photography, infrared, radar or television, to a different type, depending on mission requirements.

The drone is powered by a 140 horsepower continental engine. In a typical mission the drone is launched from a mobile trailer by two arrow II rocket motors. Once in the air the reciprocating engine takes over.

Army Mobile Computers

Four contracts in excess of \$5 million for the development and production of three additional Army MOBIDIC computers and for programming assistance have been awarded to Sylvania Electric Products, Inc.

The first MOBIDIC, a high-speed, van-mounted digital computer being developed under contract with the Signal Corps, will be delivered late this year.

The four awards include a \$1.5 million for a MOBIDIC to be used with the AN/MSQ-19 Tactical Army Operations Center; \$1.5 million for a MOBIDIC to be used for field testing of automatic data processing concepts at the Army

... Firebee at Holloman

Electronic Proving Ground, Ft. Huachuca, Ariz.; \$1.7 million contract for a MOBIDIC to be used for special field data processing purposes, and \$361,000 for programming assistance.

The mobile, completely-transistorized computers are intended for field use under world-wide environmental conditions. The special uses for which MOBIDIC computers are being developed include logistics, combat surveillance, tactical operations, scientific or analytic computation, and such applications as air traffic control and artillery target assignment.

Hercules With Skis

Lockheed Aircraft Corporation has begun delivery of 12 Ski-130 aircraft—the world's largest airplanes equipped with skis—to the Air Force for Arctic operations.

The ski-equipped Hercules prop-jet transports are being turned over to TAC crews from Sewart AFB, Tenn. These crews, members of the 314th Wing, 839th Division, will be given transition training in operating the Ski-130 at Lake Bemidji, Minn.

Steel Foundries Form Aircraft Association

The Aircraft Castings Association, a non-profit corporation to promote the increased use of ferrous castings for the aircraft, missile and related industries, has been formed by a group of leading steel foundries.

Chartered under the laws of California, with headquarters in Los Angeles, the Association has three general objectives, according to its first president, Allen M. Slichter. These are: to promote and develop an increased acceptance and use of ferrous castings, manufactured from non-expendable patterns, among the aircraft, missile and related industries; to achieve and maintain uniform high standards of quality for its products; and to promote increased research and development of ferrous castings for aircraft, missile and related applications.

Present members of the Association include Electric Steel Foundry Co., Portland, Ore.; General Metals Corp., Oakland, Calif.; The Hanford Foundry Co., San Bernardino, Calif.; Lebanon Steel Foundry, Lebanon, Pa.; Pacific Alloy Engineering Corp., San Diego, Calif.; The Stanley Foundries, Inc., Huntington Park, Calif.; and Symington-Gould Division of Symington Wayne Corp., DePew, N. Y.

Inquiries should be addressed to the secretary, W. W. Stevens, Jr., Stanley Foundries, Inc., 6009 Santa Fe Avenue, Huntington Park, Calif.

VAdm. Colclough, Former Dean, Is New Acting GWU President; Others "Keep Busy"

**VAdm. Colclough Takes
GWU Gavel From Dr. Marvin**

Dean of the Law School since September 1949 and Dean of Faculties since February 1953, VAdm. Oswald S. Colclough, USN-Ret., is the new Acting President of George Washington University in the Nation's Capital.

A USNA '20 graduate with a Bachelor of Laws degree (with distinction) from GWU in '35, Admiral Colclough is shown in the above photograph taking the gavel—made from timbers of the White House—from former President Cloyd Heck Marvin.

Admiral Colclough, 60, was Judge Advocate General of the Navy before his retirement in 1949.

During WWII, he served as Commander, Submarine Division 101; Commander, Submarines, North Pacific Force; CofS and Aide to the Commander, North Pacific Force; and Commanding Officer of the battleship North Carolina.

Admiral and Mrs. Colclough, the former Kathleen Bain of Norfolk, have three daughters, Mrs. F. A. F. Cooke of Dahlgren, Va.; Mrs. John F. Dolan of Jacksonville; and Mrs. John T. Harris of Pittsfield, Mass.

R/A Eddie Sanders Named Ryan Advisor

RAAdm. Eddie R. Sanders, USN-Ret., has joined the Ryan Aeronautical Company's Electronics Division in San Diego as Executive Advisor to Director of Engineering and Customer Relations Owen Olds, on matters pertaining to military relations.

Admiral Sanders, who studied electrical engineering at the University of Illinois, is a '30 USNA graduate. He also attended the Naval War College and completed flight training at the Pensacola Naval Air Station.

His aviation and shipboard experience included command of the escort carrier Cape Esperance and the attack carrier Hancock, duty as CofS, Operational Development Force, Atlantic Fleet, Deputy Director, Air Warfare Division, Office of Chief of Naval Operations, and Commanding Officer of Grosse Isle, Mich., Naval Air Station.

Col. Howard Moore Is Chief

Col. Howard Moore, former Chief of the Quality Control Office, has been appointed Chief of the Plans and Programming Office at Kelly AFB, Tex.

Lt. Col. Clarence P. Dittman, who has been serving as Director of Materiel with the 21st Tactical Fighter Wing at Misawa AB, Japan, has been named as Acting Chief of Quality Control.

Col. Joseph L. Dickey, USMC-Ret., has been named by Westinghouse Electric Corporation for a key role in a broad, coordinated program on anti-submarine warfare. With Dr. Patrick Conley, Manager of the Company's Baltimore Air Arm Division, Colonel Dickey, USNA '34, will direct the activity.

Colonel Dickey joined Westinghouse after retirement in 1956. He attended the U. S. Naval Post Graduate School, graduated from the Naval War College, and earned a master of science degree at Harvard University in 1942. He organized and headed the Navy's initial shore radar design program in WW II and served as missile guidance and control consultant to the Assistant CNO for guided missiles. While assigned to the submarine base at New London, Conn., he worked on sonar and submarine radar detection.

Col. G. W. Trichel, USA-Ret., has been named Military Advisor to T. F. Morrow, Chrysler Corporation, Group Vice President—Defense and Special Products. President of Chrysler Corporation's Amplex Division since 1956, Colonel Trichel, USMA '18, at the end of WWII was Chief Ordnance Officer for the American Forces of the Western Pacific. He joined Chrysler Corporation in 1946 on the staff of the Vice President and General Manager.

During his Army career, Colonel Trichel held many important posts including that of Chief of the Army Ordnance Corps' Rocket Development Division, Advisor to the Director of the Atomic Weapons Project, and Deputy Director of the Research and Development Division of the War Department. He participated in the establishment of White Sands Proving Grounds, N. M., and was active in the supervision and coordination of Army participation in the atomic bomb tests at Bikini Atoll.

Colonel Trichel lives at 616 Puritan Road, Birmingham, Mich., with his wife and two sons.

Col. Donald J. Bailey, USA-Ret., has been named Manager of Raytheon Manufacturing Company's new offices in Washington, D. C. He transfers from corporate headquarters in Waltham, Mass. where he served as corporate representative on the firm's government relations staff. Colonel Bailey, USMA '25, succeeds Capt. J. N. Boland, USN-Ret., who will join the staff of Marshall A. Williams, Director of Market Develop-

United Services Honors 37 Reserve, Retired Officers

Thirty-seven retired and Reserve officers have been honored by United Services Life Insurance Company, Washington, D. C., for selling over \$1 million in insurance during 1958.

Ten were elected to membership in the company's "Two Million Dollar Club" for writing more than \$2 million in policies during the year.

Included on United Services' honors list are:

Two Million Dollar Club: Capt. Edward L. Batko (Man of the Year) USAFR; Col. Francis H. Boos, USA-Ret.; Capt. Donald M. Hanson, USAFR; Capt. Pat Henry, USN-Ret.; Brig. Gen. Mason H. Lucas, USA-Ret.; Brig. Gen. George P. Lynch, USA-Ret.; Rear Adm. William M. Rakow, USN-Ret.; Maj. Mason F. Richards, USAR; Col. A. L. Schroeder, USAF-Ret.; Maj. G. Clifton Webb, USAR.

One Million Dollar Club: LCdr. Robert M. Bissey, USCGR; Capt. Robert E. Blount, USAFR; LCdr. George W. Bryce, USNR; Maj. Perry L. Courtney, USMCR; Maj. David U. Elliott, USAR; Capt. Stanford R. Espedal, USAFR; LCdr. James E. Evans, USNR; Robert Fain; LCdr. Roy W. Fuegel, USNR; Cdr. C. Dean Groth, USNR; Col. John F. Guillett, USAF-Ret.; Maj. Albert E. Hand, USAFR; Col. Hilton E. Heineke, USA-Ret.; Capt. Steven C. Hollander, USAFR; Col. Montgomery C. Jackson, USA-Ret.; Lt. Albert J. Kermes, USN-Ret.; Col. George E. Lightcap, USA-Ret.; Maj. Branko T. Popovich, USAFR; Col. John B. Reybold, USA-Ret.; Capt. R. H. G. St. James, USA-Ret.; Col. Charles J. Schlappkohl, USMC-Ret.; Cdr. Malcolm E. Selby, USN-Ret.; Maj. Elbert G. Slaughter, USAR; Maj. Gen. Wayne C. Smith, USA-Ret.; CWO Clifford E. Titus, USN-Ret.; Col. Edward T. Whiting, USA-Ret.; LCdr. William J. Yount, USNR.

ment for Corporate Government Relations.

Colonel Bailey joined Raytheon in June 1955 and was Assistant to the Manager in the firm's Government Services Division for three years.

LCdr. Albert W. Hartin, USN, Staff Administrative Officer, Naval Missile Center, Point Mugu, Calif., has retired after more than 23 years' active service. He plans to further his education at Ventura City College where he will major in Business Administration. He is presently residing with his wife, the former Donna Catherine Gordon of Clear Creek, Utah, and his four children, Albert Peter, 15; Russell Allan, 14; Helga Diane, 12; and Stephan Douglas, 3, at 1006 West Iris Street, Oxnard, Calif.

VAdm. Harry S. Sears, USN-Ret., Executive Director, is on a tour of Armed Forces Management Association chapters.

Lt. Col. William F. Kuhn, USA-Ret., former Commander of the 3d Missile Bn. (Nike-Ajax) 61st Artillery at Loring AFB, Me., plans to teach in Florida.

Brig. Gen. Harley S. Jones, USAF-Ret., has been appointed Executive Vice President of Republic Aviation Corporation.

Upon retirement in 1957 after 31 years' service, General Jones received the DSM.

Between 1940 and 1957 the general, who is 56, played a prominent part in production of the B-17, B-24, B-25, B-29, B-50, and B-47 bombers, the C-97 and C-119 cargo transports, the F-102 interceptor and the F-84F and F-105 fighter-bombers; the Bomarc missile, and the Rolls-Royce V-1650 and Pratt and Whitney R-2800 and J-57 engines.

Rucker Area Retired Elect Col. Johnson

A Retired Officers Association has been organized at Ft. Rucker, Ala., with Col. H. A. Johnson, Jr., of Ozark as President.

Others elected were Major Cozart of Ozark, First Vice President; Maj. Joseph Vaughn of Enterprise, Second Vice President; Maj. C. J. Barnes of Enterprise, Secretary and Treasurer; Lt. Col. A. J. Lane of Dothan, Assistant Secretary; and Col. Tom L. Borom of Ozark, Legal Counsel.

Information may be obtained by contacting Maj. C. J. Barnes, Army Aviation School Supply at Fort Rucker (Phone 2810). His home address is 117 Hutcheson Ave., Enterprise.

A FIGHTING G-2!

That's the Army Navy Air Force Journal.

Free from dependence on any single Service . . . completely detached from any partisan group or association . . . THE JOURNAL aims its coverage at the full picture of National Defense.

In these days of sharply increased emphasis on unification . . . across-the-board actions, and the priority need to understand . . . JOURNAL readers have the advantage of authoritative, up-to-the minute reports on the total defense story.

THE JOURNAL's total independence . . . guarded today with the same zeal as in 1863 when the "Spokesmen of the Services" was founded . . . is essential to the attainment of two inseparable objectives:

1. Assurance that our Nation has adequate forces to meet the Communist threat.
2. Assurance that proper recognition is given to military people and their families.

You can count on THE JOURNAL for the authoritative all-Service coverage that is essential to every career military man today.

If you place a critical value on independence . . . if you and your family have a requirement to be kept fully informed on what's happening to our Fighting Forces and the people who dedicate their lives to National Security, then you will want to be a reader of the ARMY NAVY AIR FORCE JOURNAL—

YOUR FIGHTING G-2!

New "Hump" Plan

From page 17—

retired at the end of their 30th year under present law.

The first method will be used by the Navy to force the retirement of the necessary number of captains.

Marines Use Second Method

The Marine Corps will use the second method, only, for "the immediate future." This results from the fact that Marine colonels currently are considered for promotion to brigadier general in their 23d to 25th year.

To create additional vacancies in the grades of commander and lieutenant colonel, the proposal provides that officers in these grades shall be considered for continuation on the active list when they have twice failed of selection for promotion. Those not selected for continuation would be retired at the end of the fiscal year in which the report of the board is approved or in which they complete 20 or more years total commissioned service, whichever is later.

Officers considered and recommended for continuation on the active list would not again be subjected to consideration while in the same grade but would continue on the active list for the periods prescribed in existing law.

All of the above provisions would expire on 30 June 1970, at which time it is expected that the last of the "hump" officers will have passed into the grades of captain and colonel.

Promotions To Major

Provisions relating solely to the promotion of majors in the Marine Corps to the grade of lieutenant colonel would expire on 31 December 1964.

In connection with the latter provisions, the Navy said passage of the Marine Corps officer hump into the grade of lieutenant colonel will retard promotion flow for a number of officers beyond those points considered as optimum for producing senior officers of appropriate age and service characteristics.

In order to minimize this condition, without assessing excessive attrition and producing inequality in opportunity for promotion, the Marine Corps desires to dispense with the establishment of promotion zones in those years in which it is not necessary to create vacancies in the grade of major or it is not possible to remove from the active list those majors who have twice failed of selection for promotion.

To accomplish this, the proposal authorizes the Secretary of the Navy to establish zones of consideration in lieu of, or in conjunction with, promotion zones.

In the years that zones of consideration are established, and promotion zones are not used, all selections would be made from within the zones of consideration, and any officer not selected for promotion would not be considered as

26 Make Major In Army S.O. 30

The Army has named 26 Line majors for temporary promotion to lieutenant colonel in Special Order No. 30, dated 11 February. The cut off date of rank was 19 June 1951. The junior officer had 174 months, 22 days service as of 30 June 1957. They are:

Barrios, W W J, Inf	Martin, Robert W, Inf
Beninate, N J, AGC	McDonald, T J, OrdC
Brooks, Cloyce H, CE	Minor, E M, OrdC
Bzdek, B M, Arm	Perkins, Robert, SC
Cleveland, R E, Arty	Piccirilli, A A, Arty
DeFranco, T J, Arty	Tilsen, Louis, Arty
Fulmer, John M, AGC	Ream, Ellis A, Arty
Goodman, Jess L, Inf	Robinson, R L, Arm
Harris, Elva, Arty	Smee, F W, CE
Hunt, Paul E, Arty	Sullivan, A P, SigC
Kelly, Randall, Inf	Vincent, D N, TC
Lindsey, M L, TC	Westmoreland, R M, Arty
Lovell, H R, QMC	
Lutz, Edwin M, Inf	

having failed of selection. The Navy said "This would permit the advancement of the most outstanding majors, without passing over other majors whose services are valuable and needed by the Marine Corps."

In years when it is necessary to create vacancies in the grade of major, or when the age and service characteristics of majors who have been previously considered for promotion warrant their involuntary retirement, a promotion zone would be established in conjunction with a zone of consideration, so that non-selected officers in or above the promotion zone would be legally considered as having failed of selection and would be retired after their second failure.

Hearings before the Kilday Subcommittee are expected to be speedily concluded in view of the fact that the committee, after considering earlier "hump" proposals, already is conversant with most of the problems involved.

Retired Pay Formula Sticks

Earlier proposals would have authorized increased retired pay for those involuntarily retired.

The Navy had proposed a plan whereby such officers would have received pay credit for half the number of years which they were retired ahead of schedule. For example, a commander, guaranteed 26 years' service, if retired at the end of 20 years' service, would have been permitted to compute his retired pay on the basis of 23 years' service.

Another proposal would have given involuntarily retired officers the right to compute their retired pay on the basis of guaranteed periods of service. Thus retired pay for commanders and lieutenant colonels would have been based on a multiplier of 26, regardless of actual years of service completed before involuntary retirement, and 30 years for captains and colonels.

Under the new proposal, officers forced into mandatory retirement will be permitted to compute their retired pay on the basic formula used for all other officers.

Capitol Action

Passed By House

DRAFT EXTENSION—HR 2260, extends draft authority until 1 July 1963, as well as four-year extension of the doctor's draft law, the Dependents' Assistance Act and the suspension on strength limitations of the Armed Forces. Sent to Senate.

Passed by Senate

CAPEHART HOUSING—S. 57, extends Capehart military family housing program until 30 June 1960. Sent to House.

Introduced in Senate

EDUCATIONAL BENEFITS—S. 930, Sen. Hennings (D-Mo.), extends educational benefits now provided for Korean service to persons serving in the Armed Force after 31 January 1955.

NAVY DADS' CLUBS—S. 938, Sen. Goldwater (R-Ariz.), incorporates the Navy Dads' Clubs of America.

GENERAL PERSHING—S.J.R.es 45, Sen. Hennings (D-Mo.), establishes commission for celebration of one hundredth anniversary of the birth of General John J. Pershing.

DISCHARGES—S. 969, Sen. Magnuson (D-Wash.), provides that persons dis-

ARMY MISSILE MEN—Construction of NIKE Hercules sites was discussed at a recent conference at U. S. Army Air Defense Command Headquarters Ent AFB, Colo. Attending the meeting were, left to right, Lt. Col. Bert DeMeler of the Office of the Chief of Engineers; Maj. Paul Israel, Engineer Officer of USARADCOM's 8th Region, Ft. Sheridan, Ill.; Maj. David Craig, 4th Region, Richards-Gebaur AFB, Mo.; Maj. Henry A. Fillmer, 6th Region, Fort Baker, Calif., and Lt. Col. Paul C. Ganger, jr., Engineer Officer at USARADCOM Headquarters.

Notes On Service Missile Men

Col. James R. Johnson, USA, has been named Deputy for Operations to Brig. Gen. H. L. Sanders, CG of Troops at the Army Artillery and Missile Center, Ft. Sill, Okla. Colonel Johnson, USMA '37, was assigned to Ft. Hood, Tex., as CofS of the 2d Army Missile Command before arriving at Ft. Sill.

Lt. Cdr. Charles J. McCarty, USN, has received a Letter of Commendation from the Secretary of the Navy in recognition of his services as a Navy pilot while he was attached to "Operation Deep Freeze" during 1956-1958. He was Officer-in-Charge of the wintering-over detachment of the Antarctic expedition. Commander McCarty is assigned to the Naval Missile Center at Point Mugu, Calif., as Material Division Officer of the Target Drones Department.

Commander McCarty resides with his family at 612 W. Dempsey Rd., Oxnard, Calif.

Maj. Pierre A. Tisdale, USAF, Training Officer of the 865th Strategic Missile Squadron (Jupiter), has been awarded the Air Force Commendation Medal at Huntsville, Ala. He was cited for meritorious service while serving as Flying Training Officer of the 307th Bombardment Wing (M) at Lincoln Air Force Base, Neb.

Lt. Col. Roland E. Denby, USA, Executive Officer of the Third Artillery Group (Nike-Ajax) since the summer of 1956, will leave the Norfolk, Va. area with his wife and daughter, Rachel, for Formosa in the spring.

It Happened At The Capitol

Dependents Assistance—Armed Forces enlisted men can breathe easier with the approval by the House, and the certain favorable action in the Senate, of a four-year extension of the Dependents Assistance Act. Without this extension, thousands of men in the lower pay grades with dependents would have lost their basic quarters allowance, and all family men in the higher grades would have lost from \$10 to \$30 per month.

Small Business Plea—Senator Ralph Yarborough (D-Tex) is fighting for a greater distribution of defense contracts among small business concerns. He declared that latest Pentagon statistics show that the 100 largest prime contractors have increased their share of all contracts over \$10,000 from 68.4% in 1957 to 74.2% last year.

Vocal Army Critic—Thus far in the 86th session of Congress, the Army has had no critic more severe than Representative Frank Kowalski, (D-Conn.), a colonel who retired last year just prior to his election. He has charged that thousands of Servicemen are being used as "houseboys, cooks, laundry boys, maids and servants." It is Colonel Kowalski's contention—he is a former Commandant of the Army's Management School at Ft. Belvoir, Va.—that Congress "can literally shake out one or two divisions of troops in the Army."

USMC Cut—Rep. Clark W. Thompson, (D-Tex.) has questioned the cut in Marine Corps strength to 175,000. He charged that "this arbitrary reduction . . . is the deliberate chosen method of the Pentagon for undermining and vitiating the provisions of PL 416 of the 82d Congress, very appropriately known as the Vinson Bill after our distinguished chairman of the House Armed Services Committee who was largely responsible for conceiving, sponsoring, and the ultimate passage of the law that required three combat divisions and three air wings in the Marine Corps."

charged from the Armed Forces who are proffered discharges other than honorable may reject such discharges and receive a court-martial or if not court-martialed, shall be given honorable discharges.

PRIVATE INDUSTRY—S. 976, Sen. Butler (R-Md.), requires expenditure of 60 per cent of the funds expended for military aircraft and missile repair and overhaul with private industry.

WWI BENEFITS—S. 983, Sen. McCarthy (D-Minn.), extends certain rights and benefits granted to veterans of service in U. S. Armed Forces to certain U. S. citizens who served in the active military or naval service of any government allied with the U. S. during WWI.

Introduced in House

RETIRED PAY—HR 4007, Rep. Brewster (D-Md.), equalizes retired pay.

UCMJ—HR 4040, Rep. Philbin (D-Mass.), amends Uniform Code of Military Justice.

INDEMNIFY CONTRACTORS—HR 4103, Rep. Benson (D-Ga.), authorizes indemnification of the defense contractors against nuclear and other hazardous risks.

COAST GUARD ACADEMY—HR 4182, Rep. Bowles (D-Conn.), provides an appropriation of \$6,565,000 for construction at U. S. Coast Guard Academy.

RETIRED PAY—HR 4215, Rep. Clement W. Miller (D-Calif.), equalizes retired pay.

New AF Procurement Officer

Maj. Kenneth I. Paul, USAF, has been appointed Chief of the recently opened Air Procurement Office in Salt Lake City, Utah. An Ogden Air Materiel Area field activity, the new office will administer more than \$19 million in Air Force contracts in the Salt Lake Area.

Major Paul has been at Air Materiel Command Headquarters, Wright-Patterson AFB, Ohio, as a procurement inspector in the Inspector General's office.

Air Division Annual Safety Award, Col. Leslie W. Holman, director of operations, (right) presents the award for the "Best All Around Safety Performance For 1958" to Col. Allen D. Smith, commander of 4234th Hospital. Having won the monthly award six times last year, the base hospital can now hang it up permanently.
